### WHEELER CROSS EXAMINED BY FEDERAL ATTORNEYS IN MIS-USE OF OFFICE TRIAL

#### SENATOR CALLED ON STAND AGAIN WHILE QUIZZED ON OFFER

Trial Centers Around Testimony of Hayes' Star Witness

Great Falls, Montana, April 23.—Senator Burton K. Wheeler of Montana, on trial in federal court here for alleged misuse of office, was to take the witness stand again today for continued cross examination by the government.

John Slattery, U. S. attorney, planned chiefly to question Wheeler about an alleged offer to split fees with George B. Hayes, New York attorney. Hayes testified Wheeler tried to get him to handle government oil permits for Gordon Campbell, Montana prospector, for whom Wheeler is accused of obtaining a fee to practice before the interior department.

On direct examination, Wheeler denied he met Hayes until the latter appeared as a witness before the Brookhart committee that investigated the department of justice in March 1924, a year after Hayes declared Wheeler proposed the alleged arrangement in a New York hotel lobby.

The whole fight in the trial has now centered around Hayes. The prosecution has placed its chief reliance for a conviction on Hayes testimony, on which the defense has trained its heaviest guns.

With Wheeler dismissed, the defense had but one more witness here to call today.

That done, the defense was to make a fight to have accepted as evidence a telegram from George Lukett, Washington, D. C. telephone official. Lukett reported the company had no record of a long distance call to Hayes from E. S. Booth, formerly solicitor of the interior, said by Hayes to have arranged by telegram the New York meeting with Wheeler.

Appraised of Lukett's telegram, Slattery instructed department of justice agents in Washington to search records for Booth's long distance calls. Until Washington reports, Slattery said he would fight introduction of Lukett's telegram and demand a recess of court until the department of justice completed its investigation.

The defense first asked for a two day recess to bring four new witnesses from the east to combat Hayes testimony, but altered its plans after Wheeler testified he never talked with Hayes in New York.

The four witnesses are on the way here but cannot arrive until Saturday. If Lukett's telegram is accepted by the court, Senator Walsh, Montana, chief defense counsel, said he was ready to rest without introducing additional evidence, and probably would ask for an instructed verdict of acquittal after rebuttal by the government.

### POSTOFFICE WILL OBSERVE NEW TIME

Announcement was made Thursday by Postmaster C. S. Frazer that the Xenia Post Office will adopt daylight saving time Monday, April 27, to make uniform time throughout the city.

Daylight saving time will go into effect in Xenia at 2 o'clock Sunday morning, as provided by the city ordinance and clocks will be shoved ahead one hour on that day.

In order not to cause confusion but to make the time standard throughout the city, the Dayton, Springfield and Xenia Southern Railway Company has also announced that schedules will be changed to the new time.

The Xenia Postoffice is not affected by the ordinance but makes it a yearly custom to adopt the new time every year to avoid confusion.

### SOLDIER TO HANG

Manila, April 23.—Private William Johnson, U. S. army, was sentenced to hang here today for the murder of Private William Willoughby. Johnson shot Willoughby after they quarreled as to the correct procedure on the rifle range.

### HANGED FOR MURDER

Frederickton, N. B., April 23.—Harry Williams was hanged early today at the county jail for the murder of his two half nieces, Cynthia and Nedra Foster, at Postville, November 25, last.

PEGGY ALLENBY

Calling at the office of the District Attorney in New York City to report that she had been robbed of \$2,000 worth of jewels, Peggy Allenby, pretty actress, was met by her attorney, who handed her a decree of divorce from her actor husband, Robert Armstrong.

### THURSDAY IS QUIET DAY IN GAMBLING WAR; NO NEW ARRESTS MADE

Probate Court Denies Rumor Extra Warrants Sworn Out And Not Served

For the first day since what is termed an intensive campaign against gambling in the city was opened by Prosecuting Attorney J. Carl Marshall, no further arrests were made Thursday.

Seven Xenia and one Jamestown man are being held at \$500 bond each for appearance April 27 in Probate Court to answer to charges of gambling, race horse betting and liquor trafficking, as a result of the crusade which was inaugurated last Saturday.

Although no further arrests have been made nor affidavits filed and authorities were non-committal on the question of continuing the campaign, street rumors says a large number of warrants have been sworn out against Xenia business men waiting to be filed. Probate Court denied Thursday any further warrants had been sworn out there.

Credence is given the belief that the campaign may be renewed during the week, because of the additional \$500 allowed Prosecutor Marshall Tuesday with which to carry on the war against crime.

### LOS ANGELES IS ON RETURN JOURNEY

Hamilton, Bermuda, April 23.—The United States dirigible airship Los Angeles, left its moorings here at 9:40 this morning, sailed over the islands and headed north at 10:00 a. m. on its way back to Lakehurst, N. J.

Weather conditions were excellent as the Los Angeles got away. The sun was shining brightly. There were fairly high winds.

A large crowd witnessed the get-away. They cheered as the long cigar-shaped airship soared gracefully into the air. The ship had been moored to the United States tender ship Dakota, following its arrival here yesterday. This was the second visit of the Los Angeles to Bermuda.

### FORTY ONE MEMBERS OF FORCE CONVICTED OF GRAFTING LET GO

Fifty Eight Detectives, Police and Dry Agents Are Sentenced

Cincinnati, April 23.—Forty-one members of the Cincinnati police department who were either convicted or pleaded guilty to grafting on the illicit liquor traffic, were dropped from the force Thursday morning. Complying with civil service requirements, Charles E. Tudor, director of public safety, dismissed the men. The fate of the seven other officers whose indictments were nolleed by U. S. District Judge Smith Hickenlooper because of insufficient evidence, will be determined later.

Judge Hickenlooper Wednesday sentenced fifty-eight of the fifty-nine detectives, policemen and agents of county liquor courts who had pleaded guilty.

Patrolman Leo M. Meyers, who was too ill to appear, will be sentenced later.

In all, thirty-seven members of the police force and twenty-one dry agents were either sent to the Atlanta penitentiary or to jail. The three others who were dismissed from the department were Detective James C. Hayes, Fred Bullerick and Robert Kinney, who were convicted and also sentenced to Atlanta.

Joseph Laumann, Jr., who has a wife and eight children, was given only 30 days in the Miami County Jail late Wednesday. Other late sentences were Patrolman Alfred H. Weise, fourteen months in Atlanta penitentiary; Elmer Biswell, dry agent, one year and a day; Detective Fred Glindmeyer, a year and a day; Detective William J. Craven, 30 days in Miami County Jail, \$500 fine; Urban C. Linkensdorfer, 30 days in Darke County Jail, \$500 fine; Robert E. Armstrong, 15 days in Miami County Jail, \$500 fine; William Brumbach, dry agent, four months in Darke County Jail; John Weller, dry agent, four months in Darke County Jail; Joseph Yafee, dry agent, 30 days Miami County Jail; Harry Seaburg, of Detroit, Mich., dry agent, 30 days Hamilton County Jail; Harry Mueller, dry agent, 30 days in Darke County Jail, \$500 fine; Cloyd H. Myers, dry agent, 60 days in Darke County Jail; James Pierce, dry agent, 30 days in Miami County Jail, \$500 fine; Frank Damm, dry agent, 30 days in Miami County Jail, \$500 fine; Stanley Keller, dry agent, 15 days in Hamilton County Jail, \$200 fine; Arthur W. Murry, dry agent, \$1,000 fine; Henry Bartin, dry agent, \$50 fine.

The second measure to go before the people is the Sweeney resolution, Farnsworth resolution, proposing amendment of the constitution by writing into the organic state law the "pay as you go" debt limitation provisions of the Grswold act—that no bonds shall be issued for current expenses, for acquisition of property or for improvements having an estimated usefulness of less than five years, nor for amortization over a period longer than the estimated life of the improvements. The legislature proposed to write these limitations into the constitution to prevent their repeal without vote of the people.

Another amendment to go before the people is the Sweeney resolution, providing four year terms for all elective state and county officials except judicial officers and members of the legislature.

A strong campaign in support of this is also expected to be organized. The fourth proposed amendment is the Marshall-Lipp "city planning" proposal, providing that municipalities in acquiring property for a public improvement may assess the cost against benefitted property, whether abutting the improvement, contiguous to it, or otherwise located.

### COOKING EXPERT SHOWS WAY TO SLIM SILHOUTTE

A large crowd of enthusiastic and appreciative women attended the Gazette and Republican Cooking School at McKinley Auditorium, Wednesday. Many of the audience had heard Mrs. Brown-Lewers Tuesday and came back again.

The remarkable thing to the mere man observer is that for more than two hours these hundreds and hundreds of women sat, happy and content, watching the quick confident movements of the great cook in the preparation of a full meal, while at the same time she keeps up a constant run of talk either upon the subject or something pertinent. Then the mere man observer arouses himself with a start and realizes that he too has been listening with intense interest on a subject he would have previously declared foreign and has been watching a performance in dexterous food-fixing that he never before had given more than casual attention.

Recipe leaflets are supplied each day at the Cooking School, thus adding to their repertoire during their week for Xenia housewives many new cookery ideas.

The planned steak, of Thursday, garnished with French fried onions, beaten potatoes and other vegetables, was a dish which would have tempted any masculine appetite. Mrs.

### NEW RADIO STATION

Elyria, O., April 23.—Elyria tonight opens a broadcasting station, one of the few in the United States in a city of its size. The program will begin at 7:55. The broadcasting will be on a 227 metre wave length.

Ex-Senator J. F. Burke, publisher of the Chronicle Telegram will talk on "radio, newspaper and the public."

A number of other speeches and music will feature the opening program.

### INTEREST CENTERS IN AMENDMENTS AT NOVEMBER ELECTION

McDonald Taxation Bill Will Be Pushed In Propaganda

Columbus, O., April 23.—Greatest interest in the November elections in Ohio is expected to center in the four proposed amendments to the state constitution which are to be submitted to the people for ratification.

Most important of the group and the one which is likely to be object of a powerful propaganda campaign during the summer and autumn is the McDonald taxation proposal, modifying the uniform rule and laying the foundation for a modern scientific taxation system to replace the system under which the state now operates.

The proposal was defeated at referendums in 1921 and 1923. A statewide organization is now being built up among organizations interested in the proposal to present the merits of the proposed amendment to the people and a fund of sizeable proportions is being raised to defray expenses of the campaign.

The amendment would give the legislature authority to classify intangible property for taxation and to remove automobiles from personal property taxation.

The second measure to go before the people is the Sweeney resolution, Farnsworth resolution, proposing amendment of the constitution by writing into the organic state law the "pay as you go" debt limitation provisions of the Grswold act—that no bonds shall be issued for current expenses, for acquisition of property or for improvements having an estimated usefulness of less than five years, nor for amortization over a period longer than the estimated life of the improvements. ### THREE INJURED

Cleveland, O., April 23.—Three persons were injured today when a crowded bus from Berea to Cleveland overturned in West Park, according to reports to police.

### SUSPECTED ATTACK

Pomeroy, April 23.—Elias Justice, 65, who thought his home was being filled with poison gas by his enemies and who used a shotgun in guarding his property was jailed here. His wife was said to harbor similar hallucinations. The aged couple, otherwise, were said to be excellent citizens.

### THREE INJURED

Cleveland, O., April 23.—Three persons were injured today when a crowded bus from Berea to Cleveland overturned in West Park, according to reports to police.

Three prisoners from Atlanta penitentiary who were sentenced for conspiracy to violate the prohibition laws at Pittsburgh not long ago, were brought here last night with the expectation that they may furnish another new angle to the investigation. It was reported that they made an important statement to the federal officials in charge of the probe here, including Mrs. Mabel Walker Willebrandt, assistant attorney general.

Indications today were that the scandal which first settled down on Ohio, has reached a broader scope, and probably will lead to this disclosure of a chain of irregularities which will reach into Pennsylvania and Michigan.

Columbus witnesses to testify today are: D. E. Monas, president and treasurer of the Physicians and Druggists Supply Company; A. A. Barrick, vice president of the company; B. H. Miller, former treasurer and Jennie Miller, Morris, Jacob and Lillie Stone and May Eversole who were attached to the company.

### FEDERAL ENFORCING AGENCIES TO MERGE FOR GREAT CAMPAIGN

Andrews Calls Meeting To Organize Officials for Program

Washington, April 23.—The greatest criminal drive in the history of the government is planned by the Coolidge administration through practical merger of all federal law enforcing agencies, the International News Service learned today.

Every crime detecting branch of the government will be called into the drive and their combined ranks thrown against run runners, dope peddlers and alien smugglers, if a program drafted at the treasury department is adopted.

The chief object would be to erect an impassable barrier on all American border lines.

To perfect this gigantic federal crusade against crime, assistant Secretary of the Treasury Andrews, decorated by the government for his organizing genius, has called a conference for tomorrow.

Representatives of the state, labor, treasury and justice departments will discuss means of co-operating the efforts of customs agents, public health officials, department of justice agents, immigration authorities and the consular service to build a stone-wall defense against smuggling.

The program is understood to have the sanction of Attorney General Sargent, Secretary of the Treasury Mellon and other high officials, who have agreed that emergency measures must be taken to smash the smuggling evil.

It was expected that the rounded out plan would be submitted to the president and that possibly an executive co-ordinating order would be required.

Under the present system of border protection, there is an absence of centralization of effort and a general conflict of authority among the various agencies, it was understood.

The merger of federal agencies was suggested to correct this evil.

An official investigation disclosed that various arms of the border patrol have not been working in entire harmony. A clash between agents of the prohibition unit and immigration service at Detroit was recently reported to the labor department.

Other petty jealousies have arisen preventing effective law enforcement, officials said.

Instead of acting independently, as under present regulations, agents of the state, labor, treasury and justice departments will co-operate and will be held jointly responsible for the enforcement of all laws pertaining to border protection if the merger is effected. This would send a tremendous army of federal agents into the field searching for all violators of federal laws.

The proposed "merger" has frequently been suggested in congress but the conference tomorrow will be the first step in that direction ever taken by the executive branch of the government.

Joffre was finally overpowered and taken to a police station where he claimed diplomatic immunity and was released. The attaché battled with Policeman W. J. Middleton in a Fourteenth Street restaurant, according to police records, when the latter attempted to quell a disturbance caused by Joffre and a party of friends.

The policeman charged Joffre's party was "passing a bottle around" and tried to force him to take a drink. Joffre fought arrest and in the battle, the policeman was thrown through a glass door, suffering cuts on his limbs.

The bride and bridegroom are now on their long delayed honeymoon.

### WITNESSES CALLED FROM COLUMBUS IN LIQUOR LEAK PROBE

Hayner Scandal May Be Extended To Other States Is Reported Now

Cleveland, April 23.—Thirteen Columbus witnesses including ten former and present stockholders in the physicians and druggists supply company, were slated to appear before the federal grand jury investigating second phases of the liquor leakage from the Hayner Distillery, at Troy through the Arnold Drug and Candy Manufacturing Company of Cleveland.

This newest development in the probe today involves for the second time persons at Columbus. Columbus first was moved into the spotlight when federal enforcement officials there were indicted among the ten against whom charges were made by the first special jury.

Three prisoners from Atlanta penitentiary who were sentenced for conspiracy to violate the prohibition laws at Pittsburgh not long ago, were brought here last night with the expectation that they may furnish another new angle to the investigation. ### SLIGHTLY INJURED WHEN CARS COLLIDE

Charles Rheubert, Xenia, sustained a sprained ankle when the automobile in which he was riding was struck by an auto driven by Earl Babb, Jamestown, R. R. 3, at the Davis Oil Company filling station, South Detroit Street, Wednesday night.

Babb was driving north on Detroit Street when his car collided with the auto turning into the filling station. Earl Bone, New Burlington pike, driver of the automobile and Cecil McClannahan, another passenger in the auto, received bruises. Both autos were only slightly damaged. Rheubert's injury was dressed by Dr. C. G. McPherson.

### ALLEGED CHURCH PLOT WAS INSTIGATED BY SERBIAN INTERESTS

Foreign Office Denies Reports of Wholesale Executions

London, April 23.—M. Prutkin, leader of the agrarian party and former chief of police of Sofia, and M. Muravieff, former minister of war in the Stambulinsky, or peasants party cabinet, were assassinated today, according to Central News dispatches from Sofia.

The same agency in Belgrade dispatches that the Jugo Slav government had demanded that the Bulgarian government either explain or apologize for accusations from Sofia that the attempted uprising in Bulgaria was instigated in Serbia.

The Jugo Slav government threatened to break off diplomatic relations, if Bulgaria refused to comply, the agency dispatch added.

M. Rousset, minister of the interior, made the first direct charge against Jugo Slavia at yesterday's session of the Bulgarian parliament. He quoted the bell ringer of the cathedral as saying that Captain Minkoff had assured him before the explosion that he would be taken safely across the frontier in an automobile of the Jugo Slav legation.

Minkoff was the ex-army officer who placed the bomb under the dome of the cathedral. He was shot by the police Monday.

The British foreign office stated that it believed reports of wholesale executions in Sofia had been inspired by communists in Vienna and that it had discounted the reports accordingly.

"The Bulgarian government has acted with great restraint and has the situation well in hand," said M. Mischel, the Bulgarian minister to England. "I received a message late last night, asking me on behalf of the Tsankoff government officially to deny reports of wholesale arrests and executions in Bulgaria."

Budapest, Hungary, April 23.—The newspaper Pestnaplo today said that the British and American ministers in Sofia had intervened and asked the Bulgarian government for more humane treatment of prisoners. The move was prompted, the newspaper said, by rumors of executions.

Athens, April 22.—Greece, Jugo Slavia and Roumania will protest to the conference of ambassadors against any increase in the Bulgarian army. It was learned today. They will contend that Bulgaria's present force, are sufficient to preserve order and that they already exceed the limit set by the treaty of Versailles.

### BOLIVIAN EMBASSY ATTACHE ARRESTED AFTER FREE FOR ALL

Senor Gets Rough With Cop Who Interrupts Alleged Wild Party

Washington, April 23.—Diplomatic circles were stirred today by the arrest of Senor Don Jorje Blaud Jofre, attaché of the Bolivian embassy following a free for all fight with a policeman.

Jofre was finally overpowered and taken to a police station where he claimed diplomatic immunity and was released. The attaché battled with Policeman W. J. Middleton in a Fourteenth Street restaurant, according to police records, when the latter attempted to quell a disturbance caused by Jofre and a party of friends.

Brief but Important Lessons in Finance Markets Stocks Bonds and Investments

N. C. F. asks, "Should any stocks be included in my investment list?"

Yes, if they are high grade stocks. For one thing, the rate of return on high grade stocks is often greater than on high grade bonds. The share of stock is also an entirely different thing from a bond. A bond represents the indebtedness of the company to you—a share of stock indicates that you are part owner of the company.

There is also a chance of picking up a few mildly speculative dollars on even the best of stocks, and the business man who can afford to take some risk in his investments ought to find many stocks attractive investment propositions.

This article advocates the buying of any stock OUTRIGHT and not on MARGIN. Marginal trading is entirely outside of the investor's field.

## An easier way to make tempting cookies

BY MRS. MARY BROWN LEWERS

Mrs. Brown-Lewers is in charge of the popular Gazette-Republican Cooking School classes. Below she gives four recipes for cookies that will delight the heart of any child.

Isn't one of the fondest memories of your childhood your visits to Grandmother's old stone cookie jar? Grandmother had to stand and roll and cut out cookies, but she always seemed to find time to do it.

But today we have an easier, quicker way to make cookies than Grandmother had. The cookies for which I give recipes

below call for no rolling or cutting. I'm sure that they will gladden the heart of any child or grown-up.

Save these recipes. When you see how quick and easy it is to make them you will not let your children grow up without the memories of Mother's wholesome Crisco cookies, to tell their children about.

### Nut Wafer COOKIES

Sliced instead of rolled and cut. Use Crisco and see how easy it is to cream with sugar. Crisco keeps so long you can double this recipe and keep the rolls in the ice box a long time, slicing and baking as you need them.

**All measurements level.**  
1 cup brown sugar  
1 cup white sugar  
1 1/2 cups melted Crisco  
5 cups pastry flour, sifted twice  
6 eggs, well beaten  
2 teaspoons soda  
1 teaspoon cinnamon  
or other spices  
1 cup chopped nuts (blanched almonds are best)

1 teaspoon salt  
Cream Crisco with sugar. Add eggs slowly mixing thoroughly. Add nuts. Then dry ingredients sifted together twice. Shape into roll about 2 1/2 to 3 inches in diameter. Put in Criscoed pan in ice box overnight. When ready to bake, slice and bake in hot oven (425 degrees Fahrenheit). Makes about 75 cookies.

### Grandmother's Old Fashioned Ginger COOKIES

Made the new easy way—no tiresome rolling or cutting. Crisco is always ready for instant use and is easy to cream with the brown sugar. Grease your pans with Crisco and drop the cookies far enough apart to keep them round.

**All measurements level.**  
1 cup brown sugar  
1 cup molasses  
1/2 cup Crisco  
1 egg, beaten  
1 teaspoon ginger  
1 teaspoon salt  
1 teaspoon soda  
1 cup sour milk  
3/4 cups pastry flour

Cream Crisco, sugar and salt together. Add molasses and ginger, then egg. Dissolve soda in sour milk. Add, mix thoroughly. Last add flour. Drop teaspoonfuls of batter on a Criscoed baking pan and bake in a medium oven (375 degrees Fahrenheit). Makes about 50 cookies.

### Caramel or Butterscotch COOKIES

Another sliced cookie—without nuts. Crisco will keep these cookies fresh, too, both before and after baking. The flavor improves if they are kept in an air-tight container. Try empty Crisco tins and send a Crisco can of Crisco Cookies to the boy or girl away at school. Grease your pans with Crisco to keep every cookie whole.

**All measurements level.**  
4 cups dark brown sugar  
1 cup melted Crisco  
4 beaten eggs  
1 teaspoon salt  
7 cups pastry flour  
3 teaspoons baking powder  
Follow the method for Nut Wafer Cookies. Makes about 125 cookies.

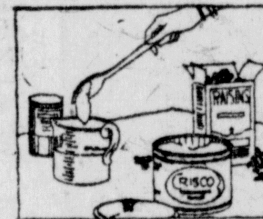

for FRYING  
for SHORTENING  
for CAKE MAKING

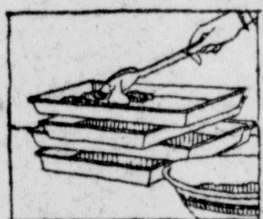

### How to make COOKIES in half the time

1 Lay out on your work table and measure accurately all the ingredients the recipe calls for. Get out all utensils needed.

2 To measure Crisco accurately. If one-half cup is needed fill cup one-half full of water, add enough Crisco to bring water to the top, drain water off. Then follow method given in the recipe you are using.

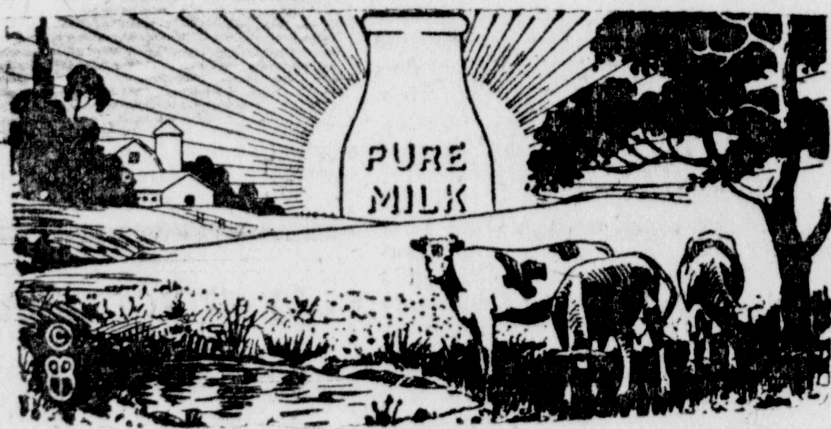

3 Grease pans with Crisco and stack on the table. Drop spoonfuls of the batter far enough apart to prevent running together.

4 When baked, remove to board to cool. Use the same pans over and over without washing. Simply shake out possible crumbs and brush over with Crisco.

## BLUE RIBBON CHILD IS SOUGHT BY STATE HEALTH DEPARTMENT

Is there a perfect child in Xenia or Greene County?

Is there a child that is rated by his physician and teacher to be mentally normal, physically free of defects, reasonably cooperative in the practice of health habits and satisfactory in his behavior and attitude in the school environment?

"If such there be, go mark him well." For he, or she, as the case may be, is the child the Ohio Public Health Department is looking for, according to Mrs. Della H. Snodgrass, Xenia, state director of health of the W. C. T. U. and member of the state health committee of the state health organization.

The above requisites for the "Blue Ribbon" child sound within the reach of every youngster but are reached after the most rigid living and examination.

For him to be mentally normal the child must have a mental capacity to attain a general high average grade, or its equivalent in school work.

For him to be physically normal he must be of standard weight; not more than 10 percent under or 20 percent above the average weight for his height; he must be free from remediable defect, or chronic disease, including hearing normal and no chronic discharge from ears, vision good in both eyes, with or without glasses, and eyes free from any chronic infection or abnormal condition; nasal breathing unobstructed and nose free from any chronic discharge or exudate, tonsils rated as normal or removed, all teeth free from cavities or all cavities filled and all badly decayed teeth extracted; no enlargement of the thyroid gland and no marked chronic en-

largement of the glands of the neck, the skin and scalp clean and free from any chronic disease or abnormal condition; no evidence of anemia, no orthopedic deformity, such as club foot, marked bow legs, or any other marked physical deformity; posture satisfactory and no evidence of chronic organic disease involving the heart, lungs, or other organs or the nervous system, such as tuberculosis, heart disease, nephritis, chorea, habit spasms, etc.

To be reasonably cooperative in the practice of certain health habits, he must be physically clean, face, neck, ears, hands and finger nails cleaned daily teeth brushed daily, one complete bath once a week, clothes clean and neat, clean handkerchief daily, good personal habits of cleanliness such as clean desk, floor and surroundings, obtaining sufficient sleep, must sleep at least nine hours every night with open windows, eats well selected food, drinks one pint of milk a day, eats some vegetable daily, such as carrots, beets, peas, beans, onions, tomatoes, etc., eats some greens regularly such as cabbage, spinach, lettuce, celery; eats some fruit daily, eats some cereal daily, obtains plenty of fresh air and exercise, spends some time daily in outdoor play or exercise, proper clothing free from cigarette habit and the campaign for "Blue Ribbon" children is being put on by the State Health Department, in connection with Child Health Day, May 1. Due to the short time before May 1, and the fact that a health-school demonstration was recently staged by Xenia schools, Child Health Day will not be widely observed in the city. The campaign, however, will be held during the coming year and publicity is being forwarded by Mrs. Snodgrass to the schools over the county.

## PYTHIAN OFFICER GIVES STIRRING ADDRESS IN XENIA

The high ideals and ethics of the Knights of Pythias Lodge and the fraternal benefits gained by members of the lodge, were brought out in the stirring address of Frederick S. Attwood, Minneapolis, Minn., prelate of the supreme lodge, before the Greene County Lodge, Wednesday night at the Klan Tabernacle.

Mr. Attwood's subject was "Riding the Goat" and he emphasized the different benefits gained through membership in the order. He cited the history of the lodge and the various movements and big achievements of the fraternal order.

He visits lodges over the United States and the lecture delivered in Xenia was one of the most popular of his repertoire.

Mr. Attwood's address was followed by a short talk by Judge A. H. Kunkle, Springfield, grand chancellor of the K. of P. Lodge. He praised the work and ideals of the organization.

About 300 members of the lodge from over the county attended the meeting. About twenty-five lodge members attended a banquet in Mr. Attwood's honor at the Goody Shoppe at 6 o'clock.

Music by the Harmony Kings orchestra preceded the addresses.

## REDS FIGHT RELIGION

ARCHBISHOP TIKHON was a sturdy upholder of the rights of the Russian Church against Bolshevik persecution, and his death will remove one obstacle to its success. Though he was imprisoned for months and finally banished to a monastery, his very misfortunes made him an even more formidable enemy than if he had remained in power. He became a martyr in the eyes of a great majority of the Russian people. The party within the Church that advocates compromise with Bolshevism no doubt will gain strength now that he is gone. But those who believe that such a policy will advance the cause of religion are doomed to disappointment.

It should be borne in mind that the Soviet Government has undertaken, not only a contest against one religious body, but also a crusade against every form of Christianity. This was made very plain by Captain McCullagh, who was able to report at length the trial of members of the Russian clergy, at which sentences of imprisonment or of death were imposed. His subsequent volume revealed the full animosity of Bolshevism to the Church. More recently the Russian correspondent of the London Morning Post has given authentic details of the persecution. "We must fight religion," Lenin said as long ago as 1909; and this is the settled Bolshevik policy. No holder of office can participate in any form of religious observance. "Faith in God," writes Yaroslavsky, "prevents people from enjoying life, prevents them from fighting with assurance, from acting with decision and with courage." From this premise it is easy to deduce the theory that religion is the foe of the State.

The banning of religious ceremonies, the forbidding of religious instruction to children, the denunciation of "bourgeois morals" and of the Bible as "a book of bitter hatred"—all these things are convincing evidence of the Bolshevik attitude. While Tikhon lived, a spiritual power to combat it remained. There seems to be no one in Russia to take his place. Many have lost their faith and many are afraid to profess it.

## ON THE WRONG FOOT

SENATOR WALSH of Montana has never seemed the same since he acted as chairman of the oil investigating committee of Congress. Public affairs of all kinds to him have assumed the form of conspiracies. They are hiding behind every tree box. Senator Walsh knows it because he has seen their skulking forms. In the circumstances he is on hand to guard the interests of the people.

His latest discovery is a "well-organized movement to discredit Congress in order to help the administration to put through the Mellon tax plan "with the greatest reductions in the high brackets." It now seems probable that it will be possible to reduce taxes to the extent of about \$300,000,000, and the Senator is of the opinion that the same philosophy of tax reduction will be applied to this bill as was applied to the one that went through the last Congress. "It will call for the greater reduction in the high brackets, and the alignment in opposition will be similar to that which defeated the first Mellon tax bill."

Reading this, one must have the depressing feeling that Senators who stick too close to Washington fail to get in touch with the sentiment of the country. If Senator Walsh was only fair to himself he would admit that the overwhelming voice of intelligent people was in favor of the first Mellon bill, and that Congress in refusing to pass the measure in the form that was desired by the administration really defied public sentiment. Now the people are satisfied with the leadership of President Coolidge and Secretary Mellon, and those who flout that leadership will only weaken their own influence.

The dispute over the reduction in the high brackets might be continued until doomsday without getting everybody to come to an agreement. But, in substance, men like the Senator from Montana claim that these reductions unduly favor the rich, while Secretary Mellon and his predecessors in the Treasury—Republican and Democratic alike—say that they are the sure way of enticing capital into business, thus insuring greater revenue to the Government. And greater revenue, with economy of expenditure, means lower taxes for all.

Senator Walsh takes himself too seriously. What he speaks of as "these attempts to break down the confidence of the public in Congress" is due to members of Congress themselves and to no one else.

### DIGNITY

My sense of humor says "tee-hee,"  
Unto my solemn dignity.

My dignity would strike a pose  
And be an image wearing clothes.

I think 'twould rather be refined  
Than either lovable or kind.

It pains me greater than I am,  
And glories in the frills of sham.

Whenever I am dignified  
My children run away and hide.

When lofty manners I assume  
My dog gets up and quits the room.

Full-panoplied with dignity  
My best friends wouldn't speak to me.

My sense of humor laughs out loud  
To see me arrogant and proud.

Though dignity in some is good,  
In me 'twould be misunderstood.

I couldn't be myself and hold  
The world at bay with manners cold.

If joy is running with a grin,  
I take the dare and plunge right in.

I can be dignified and will  
When life no longer holds a thrill.

I'll wear a solemn face and keep  
The graven look of wisdom deep.

My friends shall see me dignified,  
The morning after I have died.

Although I cannot always hope to have knitting and crochet directions for which my Reader Friends ask, I am glad that I happen to have the bed jacket requested by "Anne" and the "pretty scarf with holes in it" which "Mrs. W. D." wants.

Invalid's Bed Jacket: Buy three balls of pink silk shetland and two balls of white four-fold Germantown wool. Also one pair of number six bone knitting needles and one pair of number 13 steel. Using the steel, cast on 68 stitches with the silk shetland K 2, P 2 for four inches, then change to the number six bone needles and knit plain for seven inches. Now knit one rib of the Germantown and one rib of the shetland alternately till the work measures 20 inches from purting, then increase one stitch at one

end only every other row for seven inches; next, start decreasing in the same way you increased, till 63 stitches remain. Work 20 inches on these 63 stitches, then break off the Germantown and finish second end same as first. Sew up the cuffs to where the Germantown starts, then with silk shetland and a crochet hook, work a shell all around the neck edge and leave streamers in front, to tie. When done this little jacket resembles a wide scarf across the shoulders in back, the ends of which are formed into a short sleeve with a cuff.

Knitted Scarf with Hole Pattern: Materials: four large balls (or seven small balls, one ounce to the ball) of either shetland floss or zephyr floss, and one pair of bone or amber knitting needles size six. Begin by casting on 70 stitches. Knit 12 rows,

### GARDENS

I have always regarded money spent for books, art, lovely things, and flowers as money invested. For every time you put beauty into your heart you put wealth and riches into it also.

One thing I love about spring is that it brings the gardens. And no matter how small a yard you may have or if you have none at all, you should have a little garden somewhere. If only it be a box in the living room.

I can hardly wait until garden planting time comes around and the sad part of the year is when I realize that the garden will soon have to give way to winter.

Never shall I cease to wonder over the mystery of the natural color and odor in flowers. The other day I was walking over a dry deserted place and I came across a tiny blue blossom. I picked it and stood for a long time studying its delicate and

wonderful formation. I could think of it in no other way than the exquisite expression of the great Creator's thought.

Have a garden!

Plant it yourself, weed it yourself and make it a part of yourself. The more beautiful you make it the more other people will love it with you.

I know of nothing that soothes, rests and sweetens the spirit like a lovely garden.

God must have wanted us to make gardens for ourselves else He wouldn't have hidden away so many all over the earth for us to stumble onto.

Gardens take one's thoughts away from selfish considerations and show how akin are all life and all nature and all forms of beauty.

You will miss spring and the sweetened breath of summer and the golden songs of the autumn if you fail to hide away a little love in a garden of your own.

## ADVISES DAIRMEN TO WATCH EXPORTS

Ohio dairymen can afford to watch with increased respect export reports from foreign nations this summer. "The five principal exporting countries," explains R. F. Taber, extension specialist in rural economics at the Ohio State University, "had in 1923 increased their exports of butter by 63 per cent since before the war. This increase is continuing."

"Canada, because of her nearness a strong potential competitor for our market, increased her exports seventy per cent in 1924 above those of 1923. New Zealand and Australia both show substantial increases for this past winter."

"The big surpluses of a year ago were moved mainly because Germany, which during 1923 bought very little butter, came back and is now on her normal level of imports. But further increase in demand cannot be expected. For this reason people familiar with the situation are freely predicting that American dairymen will soon be feeling foreign competition for the American market."

Combined with this foreign situation, Mr. Taber points out, is the fact that pasture and cheap summer production are still to be heard from this year. During May, June, July and August about one half of the butter supply is produced.

The United States furthermore, reports an increase of 2.2 per cent in the number of dairy cows since January, 1924.

## MRS. NICKELL GIVEN VERDICT FOR \$2,500 DAMAGES BY JURY

Mrs. Logan Nickell, administratrix of the estate of Volney Nickell, deceased, was awarded \$2,500 in her \$25,000 damage suit against Lincoln Penderburgh, former sheriff by a jury in Common Pleas Court Thursday afternoon.

Eleven members of the jury concurred in the verdict which was returned after an hour and three-quarters deliberations. A previous jury had given the plaintiff \$5,000 damages but the Court of Appeals set aside the verdict and remanded the case for new trial on the grounds of an error in the charge to the jury.

The defense rested its case Wednesday afternoon at 3 o'clock after which Attorneys C. L. Darlington for the plaintiff and F. J. Johnson for the defense presented their arguments. Attorneys Harry D. Smith for the plaintiff and C. J. Matern, Dayton for the defendant, argued Thursday morning. The jury was given the case at 11:50 o'clock.

The suit was the outgrowth of the fatal shooting of Volney Nickell by a sheriff's posse in 1922.

## MEAT CUTTING WILL FEATURE COOKING SCHOOL LECTURE

Edward Focke, of the William Focke and Sons Packing Company, Dayton, will give a lecture and demonstration on the proper cuts of meat, at the Gazette and Republican Cooking School, at the McKinley Auditorium, Friday afternoon.

Mr. Focke has delivered similar lectures over the country. His appearance here will be an added feature of the closing day of the cooking school. A similar lecture and demonstration was given by the Focke Company at last year's school, under the auspices of these papers.

Housewives who want to know how to select the proper cuts of meats at the market or gain knowledge of how to cut meat in their own kitchens will be rewarded in attending the lecture.

## REV. JOHN KUHN SENT TO SPRINGFIELD

Appointment of the Rev. John E. Kuhn, former acting pastor of St. Bridget Catholic Church, this city, as assistant pastor of St. Raphael Church Springfield, was announced Wednesday. Father Kuhn assumed his duties in Springfield Thursday.

He succeeds the Rev. Edward J. Quinn, who recently left Springfield to become pastor of St. Ann's Parish, Cincinnati.

The Rev. Father Kuhn resided in Cincinnati before beginning his novitiate at Mt. St. Mary's and was located in Xenia for several months after the Rev. Father Albert A. Burke, was appointed pastor of Corpus Christi Church, Dayton. He has been an assistant at the cathedral at Cincinnati since leaving Xenia.

## BICYCLISTS MUST GET NEW LICENSES

Owners of bicycles who ride their vehicles without lights at night and without first obtaining new licenses are coming within the pale of the law.

This warning was issued Thursday by Police Chief M. E. Graham, who declared that a city ordinance provides a penalty for violation of this law and the provisions will be rigidly enforced. Owners of horse drawn vehicles are also required to have licenses and show lights at night by a city ordinance, according to Chief Graham.

Owners will be allowed until May 1 to obtain licenses and comply with the law.

## EAST END NEWS

Edith May Anderson, nine-months-old daughter of Mr. and Mrs. Hal Anderson, 26 Columbus Avenue, died Tuesday night at 8:15 o'clock at her home from an attack of pneumonia. She leaves besides her father and mother, one brother, James.

Funeral services will be held at the residence Friday afternoon at 1:30 o'clock with interment in Tarbox Cemetery.

The C. M. E. Mission will hold its regular prayer service Friday evening at 7 o'clock. All friends and members of the mission are invited. Mrs. Magget Hargrave, leader.

## TWENTY YEARS ARE ADDED TO LIFE'S SPAN SCIENTIST STATES

London, April 23.—Twenty years have been added to the span of human life during the last eighty years and the end is not yet.

One hundred years from now man may confidently expect to live to the ripe age of 150 years and a few centuries later he may even hope, with some chance of his hope materializing, to be immortal.

This is the rosy picture of the future painted by Sir Ronald Ross, famous British scientist, who claims that the length of human life has been increased by 50 per cent during the last century, largely by medical science in the treatment and prevention of disease.

"Eighty years ago," according to Sir Ronald, "the average London man lived 24 years and 7 months and the average London woman lived 38 years and 4 months."

"Today the average length of life of the London man is 53 years and 9 months, and of the London woman 59 years. These are the figures I have gleaned from the official statistics."

"That miraculous progress will not stop. A great scientist at the Pasteur Institute in Paris has said that in 100 years time man should live to the age of 150. Why not?"

"A famous American doctor has suggested to me that we should all be immortal. Who can tell what scientific investigation may bring? No one can say how long we may live when we are free from the ravages of germs."

Sir Ronald has dedicated his life to that work, the freeing of humanity from the ravages of germs. The Ross Institute at Putney, named after him, and designed to rival the Pasteur Institute in Paris, has just begun work. The work of the Institute will be confined to research, originally with tropical and other diseases; but the subjects of the research will not be limited.

"Our investigations must be speeded up," says Sir Ronald. "Our country must give more to medical research. At present we are spending only about \$900,000 a year, which is a penny per head of the population, on the investigation of diseases which are killing millions of people."

"We should spend at least \$5,000,000—that is only sixpence a head—every year—the cost, say, of a couple of glasses of beer. If a penny per head can add twenty years to life, what could sixpence do? The prospect is boundless."

"We are still baffled by many diseases. We have not discovered the germs which cause smallpox, measles, scarlet fever and a number of tropical diseases. We have not solved the cancer problem. Even the common cold is a mystery."

"Science, if given a chance, will conquer these ills."

## SERVES SENTENCE FOR CRIMES NEVER COMMITTED, SAID

Edinburgh, April 23.—A young man is serving seven years imprisonment for forgeries which the Court of Session—the Supreme Court of Scotland—has declared are not forgeries.

David Chalmers Anderson is the victim of this miscarriage of justice. From 1920 to 1922 he was private secretary to the late John Wilson, a wealthy Edinburgh merchant, who died leaving a fortune of more than two million dollars.

Six months after Wilson's death Anderson was arrested and charged with fraud and with uttering forged stocks and bonds, the property of his late employer.

Anderson pleaded not guilty and said that all he had done had been with the approval of his employer. But this plea did not avail him; and he would have had to serve the remaining five years of his sentence had not further litigation with regard to Wilson's estate ensued.

It was a bank case. The executors of Wilson sought to recover from the Bank of England bonds and stocks to the amount of \$250,000, which, they said, had been sold by Anderson with the aid of a forged authority in Wilson's name.

At Anderson's trial it had been urged that his conduct was such as to show he was misappropriating money. He had been living at a very expensive rate. He had lost large sums in betting on horses; he owned three expensive cars and was buying

## BODY OF COLLINS IS TAKEN FROM CAVE; WILL LIE IN STATE

Cave City, Ky., April 23.—The body of Floyd Collins, trapped in an underground cavern at Sand Cave, for the past two months, was brought to the surface this morning and taken here.

The body was in fairly good condition. The low temperature prevailing in the cave was undoubtedly responsible for its excellent preservation.

The body was wrapped in cotton to prevent its exposure to the air upon being brought to the surface.

After embalming, the body will lie in state at Cave City for three or four days and will then be given the burial insisted upon by Collins' father and brothers.

W. H. Hunt, assisted by six other miners, employed by the Collins family, were able to extricate the body from the grip of a 100 pound rock that held it at the bottom of a seventy foot shaft at six o'clock last night. Hunt said the body was removed from the brink of a "bottomless pit" and that the edge began to crumble as he and two aides loosened the body.

"We found the body sitting in an almost upright position in the narrow passageway leading from the pit," said Hunt.

Collins was caught by the 100 pound boulder that fell over his left leg and caught it in a sort of vise without crushing it. Smaller boulders had fallen and covered Collins' leg but it was the big one which imprisoned him.

Hunt's work consisted in cleaning up the original rescue shaft which went to a depth of 55 feet and in deepening the same to 70 feet.

Collins was trapped January 30 after he had discovered a new cave. He met slow death while rescuers worked vainly for days and a nation prayed that he might be rescued alive.

## Xenia Druggists Offer To All Who Suffer Stomach Agony, Gas and Indigestion

Money Back if One Bottle of Dare's Mentha-Pepsin Doesn't Do You More Good Than Anything You Ever Used

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You think perhaps you are suffocating. You are dizzy and pray for quick relief—what's to be done?

Just one dessert spoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether? Why have chronic indigestion at all?

With this wonderful medicine you can banish indigestion or dyspepsia, catarrh of stomach or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it.

And how happy you will be when your stomach is as good as new for then dizziness, nervousness, sleeplessness, headache, dull eyes and other ailments caused by a disordered stomach will disappear and you will be your old happy, contented self again. Xenia druggists and every regular pharmacist guarantees one bottle of Dare's Mentha-Pepsin to show the way to stomach comfort.

Over 6,000 bottles sold in one small New Jersey town last year—ask yourself why?—Adv.

## Here's Guaranteed Relief for Stiff, Sore, Swollen Joints

Soaks right into tendons and ligaments of your joints—right where the trouble starts—Then blessed comfort comes quickly.

Yes; it's true—the world progresses.

All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube.

Then rub it on the offending part for about a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the white fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes

and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease they call this wonder working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, penetrating prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, ankle, arch, hip, shoulder, spine or finger, and for that purpose its sale at 60 cents a tube is immense.

Sohn's Drug Store has a big supply of it and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint misery gets out—quick—and money back if it fails.—Adv.

## Why Great Cooking Experts Use Knox Sparkling Gelatine

ASK the eminent Mrs. Mary Brown-Lewers at the Home Economics Cooking School, now being conducted at the McKinley School Auditorium, by the Xenia Gazette-Republican, why she uses Knox Gelatine exclusively. She will give you these reasons:

Knox Gelatine is most economical because it goes four times further than ready-flavored kinds, which only do for one meal. One package of Knox Gelatine will serve six people with a different dessert or salad at four different meals.

Knox Sparkling Gelatine, being unflavored and unsweetened, may be used in endless delightful ways, combining perfectly with all fruit and vegetables, either fresh or canned.

Knox Sparkling Gelatine, as authorities have discovered aids the digestion of other foods with which it is combined, and is highly beneficial to health.

MODISH MITZI—Last Minute Purchases in Honor of Celebrity By JAY V. JAY

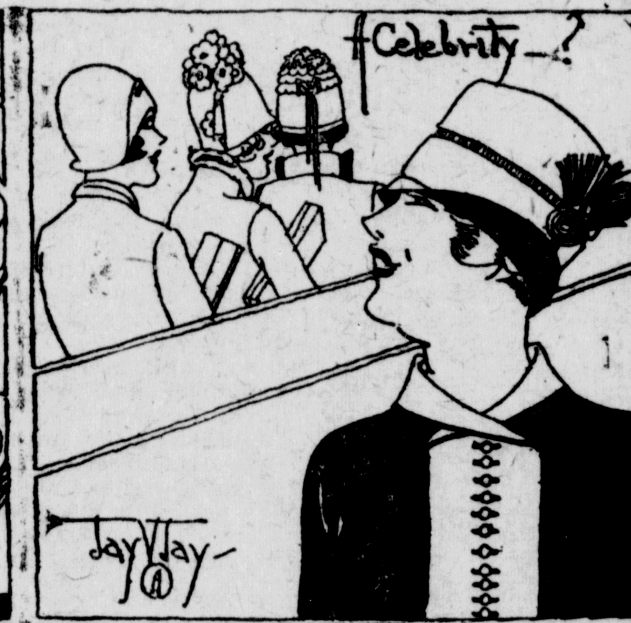

There's not a clue as to his identity. All any one knows except Dad (the old mischief maker) is that he is a celebrity. And he is due to arrive tomorrow. With this bit of information, Polly has to pass the time somehow and it might as well be shopping for bags as smart as this flat, key-lock bag of suede.

Mitzi has also found that time hangs heavy on her hands. She has decided that something decidedly novel will catch, and who knows—perhaps please a celebrated eye. A cross word puzzle scarf is rather fetching. The animal pin of rhinestones on her hat is smart, too.

He is coming from England—not from Paris so of course, he has not seen these miniature dolls that one wears on the shoulders of a tulle or at the V of a V neck gown. Eleanor is going to buy one and also one of the landscape painted handkerchiefs. Somebody simply has to take notice.

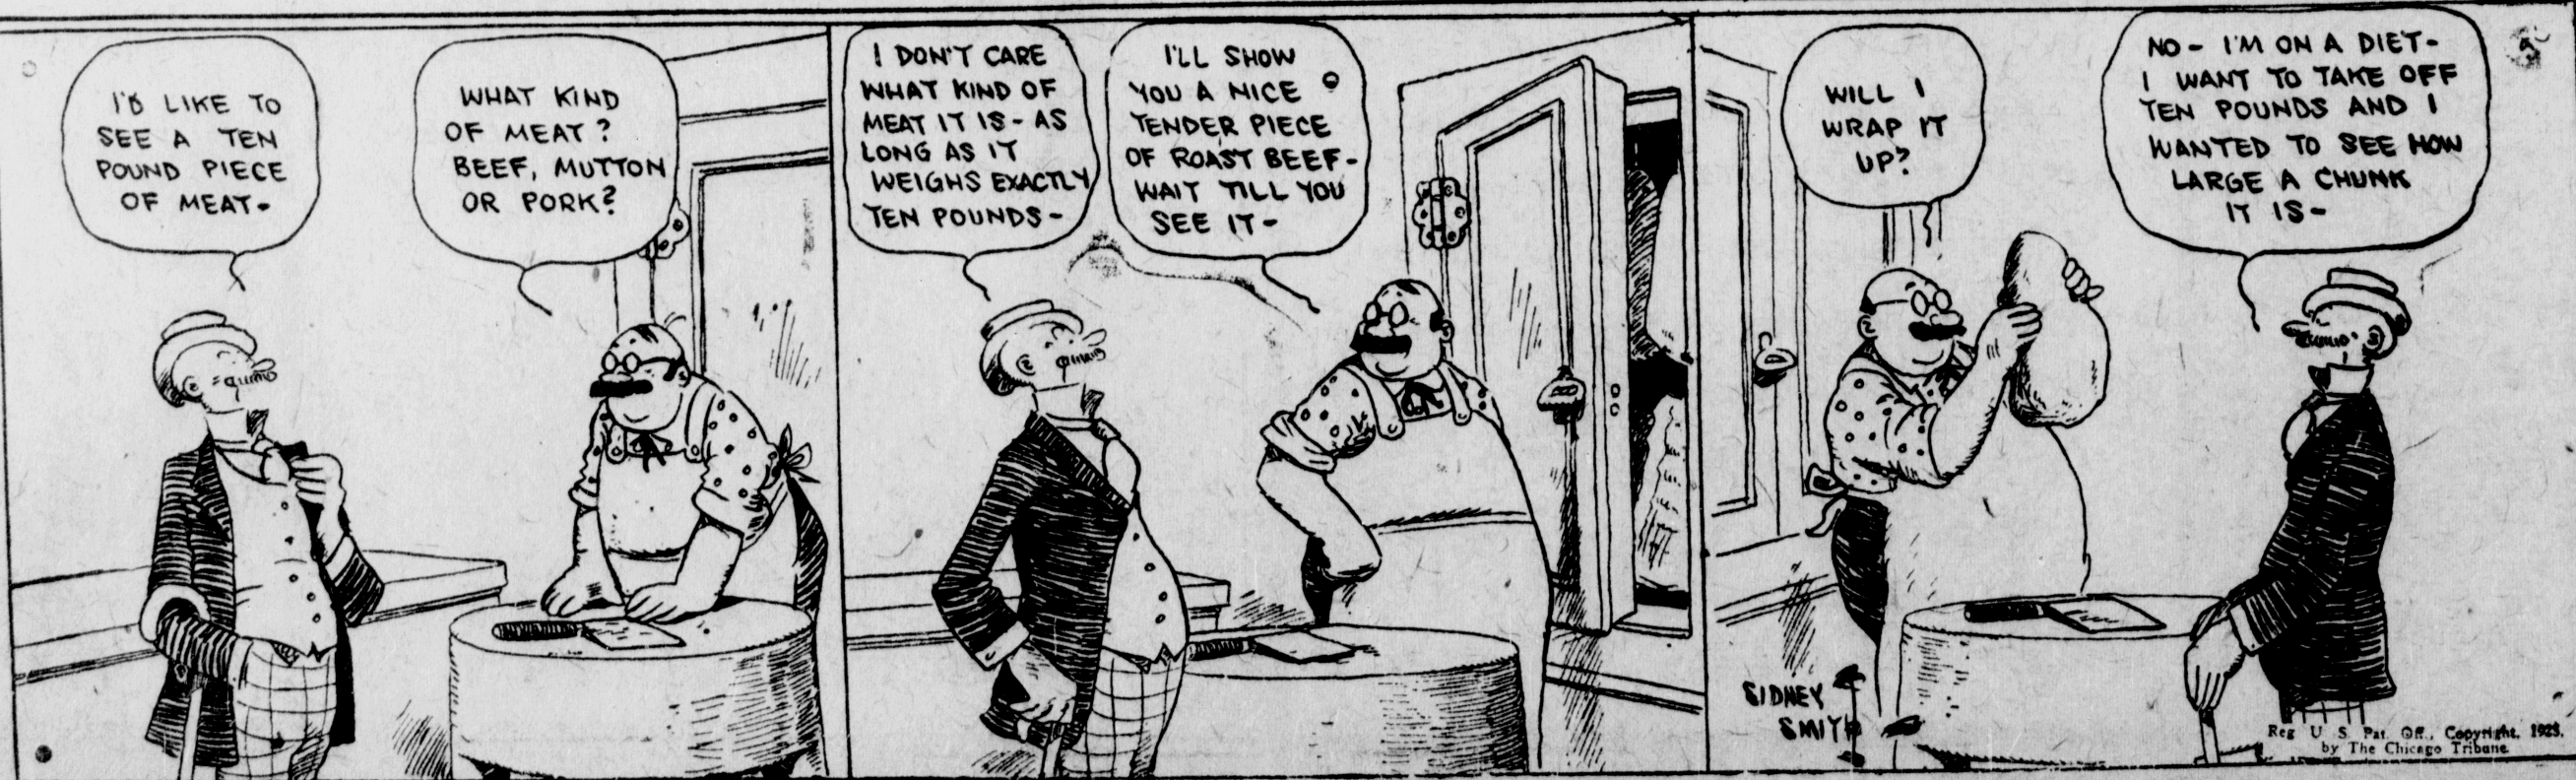

Aunt Sophia is amused. She has met the three girls esculating to the next floor of the department store. She knows that the celebrity is responsible for their purchases. Poor Celebrity! He was never so celebrated in his life before, thinks Aunt Sophia, at least by three young damsels.

## Costly Romance

The marriage of the Duchess of Talleyrand, formerly Miss Anna Gould, to Count Boni de Castellane, cost her just \$4,000,000, it was disclosed in the hearing of the accounting of the \$82,000,000 estate of the late Jay Gould in New York. This amount represented debts incurred by the Count, and payment was done through a receivership. The debts were not paid until 1922, long after she had divorced the Count and married his cousin, the Duke of Talleyrand.

## NAZARENE PASTOR RESIGNS; CHURCH NAMES SUCCESSOR

The annual business meeting of The Church of the Nazarene, was held at the church Wednesday evening and the election of officers for the following year and delegates to the Ohio District Assembly, which will be held in Central Church, Marion, O., April 29, was held.

Reports of the treasurer and church secretary show that a good increase was made in all lines of the church during the past year. The pastor, the Rev. M. R. Gilley, gave his report, which showed that there had been more than seventy professions of conversion and sanctification during the eight months of his service.

The Rev. Mr. Gilley has declined to remain for the following year and the Revs. F. H. and Zella Landgrave, of Newark, have been called to the pastorate here. They come highly recommended by the District Superintendent and the church at Newark where they have served as pastors for five years.

Mrs. Hattie Leach, Mrs. Effie Clark and Miss Clara Parks were elected delegates to the assembly.

## MEANEST MAN

Mrs. Harry Hilliard, Union Road, is looking for the person, whom, in her estimation is the "meanest person in the world."

A black and white fox terrier dog, a pet of Mr. and Mrs. Hilliard's and the mother of six puppies, three weeks old, was poisoned and died Wednesday.

An investigation is being made to find the poisoner.

## BOY SCOUTS MEET AT GUARD ARMORY

Because of inadequate room for holding meetings at the Parish House, Boy Scout Troops No. 1 and 2 have established headquarters at the Company L, National Guard Armory Hall in the former Chamber of Commerce rooms on East Main Street, Scoutmaster.

## Is Housework Keeping You Tired and Weak?

Thousands of tired, nervous, run-down women who must daily perform exhausting housework and care for children, would be astonished to learn that in most instances their fatigue, headaches, nervousness and haggard appearance are now entirely unnecessary.

For physicians say that in an enormous number of cases these symptoms are due merely to the lack of sufficient iron in the blood. And now that Science has perfected a new combination of iron, like the iron in the blood, it is, in many cases, easily possible for people to increase their strength, nerve force and endurance in only two weeks time.

Any doctor will tell you that without sufficient organic iron, your blood loses its power to change food into firm, healthy flesh and tissue. So nothing you eat does you the proper amount of good. You become undernourished, weak, nervous, and lacking in physical force and endurance.

What you need, then, is organic iron—Nuxated Iron—to enrich your blood and give you strength. For Nuxated Iron is organic iron, like the iron in your own blood. Try it just two weeks and notice the astonishing improvement. Money back if not delighted. But be sure you get genuine Nuxated Iron, with the letters NI on every tablet. This is the only kind sold under this absolute money-back guarantee. At all good druggists.

er Kingsbury announced Thursday.

The Boy Scouts have obtained the use of the Armory to hold regular meetings twice each week, he said.

The Armory has a capacity nearly three times as great as the Parish House, it is said, and all drills, exercises and meetings of both troops will be held at the new quarters.

Troop No. 1 held its regular meeting Wednesday night at the new meeting place for the first time.

## CHANGES ARE MADE IN CHRIST CHURCH

During this week, new equipment is being installed in Christ Episcopal Church, consisting of a rood beam

and a system of hidden lighting for the chancel.

On account of the work under process, the services for next Sunday have been called off. The Sunday School, however, will meet in the Parish House at the usual hour.

The furniture now being put in, is part of the project of the women of the congregation to add to the beauty of the interior, and will give a more complete appearance as well as better lighting for the part of the church containing the pulpit, choir and altar.

# MRS. MARION MOORE DIES WEDNESDAY

Mrs. Rata Edith Moore, 37, wife of Marion Moore, formerly of this city, died at St. Elizabeth's Hospital, Dayton, Wednesday night at 10:49 o'clock.

Mr. and Mrs. Moore lived in this vicinity until 12 years ago, when they moved to Dayton and their home was located at 4,000 Riverside Drive, that city. Mrs. Moore had been a patient at the hospital for a week, but her illness had dated back five weeks caused by a complication of diseases.

She was born in Paintersville, November 29, 1888. Her maiden name was Rata Edith Paine and her marriage to Mr. Moore took place December 16, 1908. Besides her husband, she is survived by her father, Frank Paine, Huntington, W. Va., and three brothers, Altha, Madge, Harriett, Jean, Frances and Billy, one brother, Frank Paine, Huntington, W. Va., and three sisters Mrs. Earl Snyder, Dayton; Mrs. Raymond Jones, Birdston, N. J. and Mrs. Ernest Strine, Martinsburg, W. Va. Mrs. Moore was a niece of Mrs. Marion Kester this city.

Private funeral services will be held at the home in Dayton, Saturday afternoon at 1 o'clock, with interment in Spring Valley Cemetery.

# HOUGHTON IS GIVEN WARM RECEPTION

Plymouth, Eng. April 23—Alanson B. Houghton, new ambassador to the court of St. James, stepped from the deck of the liner George Washington into the arms of a warm welcome here today.

He was greeted by Lord Astor, the mayor of Plymouth, American Charge d' Affaires Sterling and other embassy officials.

"The warmth of joyous welcome at the very threshold of England makes me feel I am in the home of friends," the new ambassador declared. He declined to discuss international affairs, but specifically denied he had brought with him a plan for a second disarmament conference.

## TWO KILLED

Norwood, Mass. April 23—Two unidentified men were killed and their companion Joseph King of New ton was seriously injured today when their automobile crashed into the rear of a motor truck.

## TONGUE TWISTERS

Columbus, April 23—Tongue-twisters of sizable dimensions are frequent at annual meetings of the Ohio Medical Association, whose seventy-ninth convention is to be held here May 5-7. Last year's meeting was marked by presentation of a paper on the subject of a coal tar derivative known as "phenoltetrachlorophthaloin" which took first place as a "multi-syllable" word. This derivative, it was stated, is used in the liver function test. This year the eye-nose-and-throat section is to the fore with "dactylosternorhinoplasty"—a general term, it was explained, applied to the technique of plastic operations on the lacrymal sac of the eye.

## M'DONNELL NAMED TO OPPOSE HADDIX IN COLLEGIAN TILT

The Reserves will engage in their third game of the season Sunday afternoon at Washington Park when they meet the Collegian nine of Medway. The game will start at 2:30 o'clock.

The Collegians always have a nifty team and they are noted for their hard hitting. Their last appearance in this city was two seasons ago when they met and lost to the Bayliffs by a 10 to 0 count. Willie McDonnell was on the mound that day for the Bayliffs and he twirled superb ball letting them down with three measly hits.

According to "Jap" Ritter he will more than likely pitch against them this Sunday. The Medway bunch have several new faces in their lineup and seem to be much stronger this season than they ever have been. Haddix and Maxton are doing the pitching for the Collegians while Greene is catching. Groth and Wiser, two new outfielders, played good ball last Sunday for them when they lost a tight game to the Springfield Athletics.

The locals did not look so good last week in their game with the Shroyer Cubs. Their fielding was a bit wobbly but this can be expected this early in the season. They did not hit in the pinches any so well as seven of them were left stranded on the sacks. Of the nine hits they got off Tewell they wasted five. At present they are batting .217 in the two games played while they are fielding .919 which is a trifle low. The Reserves will have two practices this week which will put them in the pink for Sunday's conflict with the Medway nine. Price of admission will be 35 cents and an attendance prize will be given away to the one holding the lucky rain check.

## TEACHERS TO TAKE EXAMINATION SOON

In accordance with recent instructions from the State Department of Education, regarding tests to be held over the state May 9, for normal and college students, the test will be for

## Wife and Husband Both Ill With Gas

"For years I had gas on the stomach. The first dose of Adlerika helped. I now sleep well and all gas is gone. It also helped my husband." (signed) Mrs. B. Brinkley ONE spoonful Adlerika removes GAS and often brings astonishing relief to the stomach. Stops that full, bloated feeling. Brings out old waste matter you never thought was in your system. This excellent intestinal evacuant is wonderful for constipation. Sayre & Hemphill, Druggists, 3 South Detroit St. In Cedarville by C. M. Ridgway. Adv.

## RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

James H. Allen, of 25 Forbes St., Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers the worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. Sohn's Drug Store is my appointed agent in your city. If you live out of town I'll gladly send you free particulars.—Adv.

## DON'T GET UP NIGHTS

John Lumpkins, Dayton, Ohio, says: "Come to 7 Carrie St., and I will show you 25 pieces of great relief passed after taking Lithiated Buchu (Keller Formula). Had to get up 15 times at night for two years. Alright Now! Lithiated Buchu cleanses the bladder like Epsom Salts do the bowels, thereby relieving irritation, driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Sold at leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Sayre and Hemphill. Adv.

## Doctor's Discovery Stops That Itch

One Minute Test Proves It Are you tormented with the agony of a burning, itching skin which seems to defy relief? Do you suffer from eczema, pimples, ulcers, and other forms of skin trouble? At no risk to you, we invite you to try this one minute test: Come to our store and get a bottle of D.D.D. on trial. Gently wash the itching portion of your skin with D.D.D. prescription, the antiseptic healing lotion. Then watch for results. If you do not experience that calm, cool sensation, if that itch is not stopped in one minute, just bring the bottle back and your money will be refunded at once.

not only those who wish to attend one or two year normal training but also those who expect to take a four-year college course in which will be included a requirement of thirty hours of education. The ruling means that practically all prospective normal and college students of the county will find it necessary to be present at the examination which will be held at the McKinley School, Xenia, at 9:30 a. m. The next examination for teachers will be held Saturday, May 2, at the Court House.

## BAYLIFFS TO PLAY SECOND GAME WITH WASHINGTON NINE

The Bowersville Bayliffs baseball team, of Bowersville, will play its second game of the season on a foreign diamond Sunday afternoon when Washington C. H. is met.

The Washington nine is a member of the Western Ohio Baseball League and proved too strong for the Bayliffs in the latter's opening game of the season last Sunday, winning by a 6 to 2 score.

Although playing a team out of its class, the Bowersville nine showed unexpected strength in all departments of play and succeeded in holding its opponents scoreless for the

first five innings while scoring two runs on its own behalf. Wells pitched a strong game from the first half of the game but by bunching hits in the last few frames, Washington managed to overcome the two run lead.

Undaunted by the defeat, the Bayliffs will play a second game next Sunday with Washington in an effort to get into the win column, and with Thurman Wical in the box, for at least the major part of the game, expects to make it interesting for its opponents.

Wical will twirl his last game next Sunday before leaving for Chambersburg, Pa., to pitch for the representative team of that city which is a member of the Blue Ridge League. He will leave April 28.

The Bayliffs will open the home season at Bowersville May 3, the opposing team yet to be selected by the management. The management is dickering with either Zimmerman or Wilmington for the first game, it is said.

The Bayliffs are stronger in practice

## Middle Age Ills

No longer need thousands be distressed and run-down with bladder and kidney troubles, sour stomach, gas and torpid liver—causing tired feeling, backaches, rheumatic pains, etc. Physicians have known for years of a remarkable Holland oil which restores the run-down organs to normal working order often within 24 hours. The only reason why it has not been widely used was its very disagreeable taste. But this has now been entirely overcome by putting it up in tasteless capsules under the name of Red Mill Haarlem Oil. You will be amazed how quickly it banishes your distressing symptoms and you feel like a new person. Costs only 50 cents, and sold under an absolute money-back guarantee. Ask these druggists:

tically every department than last year, although composed of about the same players and should make a strong bid for the county championship. Hitting power has increased and the team appears to have been generally strengthened.

## BUILDS GARAGE

Clyde Clark, Clinton, is building a garage, on the A. S. McCullough place that village. He will arrange storage room for machines, and will open a repair department when the building is completed.

## Simple Home Treatment For Swollen Veins

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask Sohn's Drug Store, Sayre & Hemphill for an original two-ounce bottle of Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emerald Oil is a powerful, yet harmless germicide and results are guaranteed.

## ORCHARD SPRAYING TO BE SHOWN HERE

Orchard spraying will be demonstrated by F. H. Beach, of the Extension Service, Ohio State University at two meetings, April 28.

The first will be held at Everett Stubs farm, two miles south of Bellbrook, in Sugar Creek Township, at 9:30 a. m.

The second will take place at H. E. Ferguson's farm, two miles north of Zimmerman in Beavercreek Twp., at 1:30 p. m.

All farmers are invited.

## Are You Fat? Just Try This

Thousands of over fat people have become slender by following the advice of doctors who recommend Marmola Prescription Tablets. These little fat reducers are made from the same formula as the famous Marmola Prescription. If too fat, don't wait—go to your druggist now and for one dollar (the same price the world over) procure a box of these tablets. If you prefer you may secure them direct by sending price to the Marmola Co., General Motors Bldg., Detroit, Mich. They reduce steadily and easily. No need for tiresome exercises or starvation diet and no unpleasant effects. Adv.

# MERCHANTS TO OPEN WITH COLUMBUS TEAM

The Xenia Merchants will open the 1925 baseball season with the A.C. of Diamonds team, of Columbus Sunday afternoon at Dickerson Park. The game is scheduled to begin at 2:30 o'clock.

Not much is known regarding the strength of the Capital City nine, but the Diamonds are represented as being one of the high class teams in the state, so a close game is in prospect.

The game with the Columbus team is the first clash of the season for the Merchants, but the locals have engaged in half a dozen practice sessions and have quickly rounded into mid-season form.

The Merchants will lineup Sunday about the same as last year with practically all of the old veterans back in the fold. Lewis will probably receive the call for mound duty in the opening game.

# CENTRAL MAY ENTER MIAMI TRACK MEET

An invitation has been extended to Central High School to enter a track team in the Southwestern Division of Ohio high schools track meet to be held at Miami University, Oxford, O., May 16, Athletic Director John Balantyne announced Thursday. The invitation will be taken under consideration, he said.

Central has not been represented by a track team, recently although the new Cox Memorial Athletic Field is easily available for track.

A number of students, upon learning of the invitation, have been practicing in the space surrounding the football gridiron, in preparation for the possibility of making the trip to Miami.

If it is decided to accept the invitation, Central would probably participate in only the dashes, the long distance runs and the relays. East High School is already entered in the meet.

# SICK WOMEN ATTENTION!

Read this Remarkable Testimony Regarding Results from Taking Lydia E. Pinkham's Vegetable Compound

Norfolk, Virginia.—"If you only knew how many women and girls have taken your medicine by hearing my testimony, it would seem wonderful to you. Every day and every chance I have I advise some one to try it. It was in June, 1904, when I had given up to never get well, that I wrote to you. My husband went to the drug-store and brought the Vegetable Compound home to me. In a few days I began to improve and I have often taken it since. I am now passing through the Change of Life and still stick by it and am enjoying wonderful health. When I first started with your medicines I was a mere shadow. My health seemed to be gone. The last doctor I had said he would give me no more local treatments unless I went to the hospital and was operated on. That was when I gave the doctors up. Now I am a healthy robust woman. I wish I could tell the world what a wonderful medicine Lydia E. Pinkham's Vegetable Compound is. I will be only too glad to answer letters from any where. I wish all sick women would take it."—Mrs. J. A. Jones, 317 Colley Avenue, Norfolk, Virginia.

# PIMPLES FOR SEVERAL YEARS

On Knee. Skin Red and Inflamed. Used to Wake at Night. Cuticura Heals.

"My husband had a breaking out of pimples on his knee which bothered him for several years. The skin was red and inflamed and his clothing aggravated it. It itched and burned causing him to scratch and used to wake him in the night. We sent for a free sample of Cuticura Soap and Ointment which helped so we purchased more, and after using one cake of Cuticura Soap and one box of Cuticura Ointment he was healed." (Signed) Mrs. Emma McIntosh, Red Cloud, Neb., Oct. 6, 1924.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

# FOR TEN YEARS "World's Greatest Buy" Everyone Says It—Sales Prove It

It is only as you find the real comparisons for Hudson qualities among the costliest cars that the enormous difference in price is so astonishing.

Today it offers the greatest price advantage and finest quality in Hudson history. Never was this supremacy of value so outstanding. And the greatest Hudson sales on record show how complete is public knowledge of the facts.

### Is There Any Reason to Pay More?

Hudson's position as the "World's Greatest Buy" is not merely a new attainment. It is acknowledgment of ten years' refinement of a great car around the famous patented Super-Six principle. No motor design, however costly, has been found to displace this long-time leadership of the exclusive Super-Six.

And today, economics possible only to the largest production of 6-cylinder closed cars give it value advantages never held by any rival.

All now know that higher price can buy no smoother performance than Hudson's. It cannot buy more brilliant results in acceleration, power or speed. It cannot buy greater reliability or endurance.

No car at or near the price rivals the Hudson Coach in actual proof of value—which is SALES.

### SIXTY YEARS AGO

a young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription" and placed it with the druggists in every state.

Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womankind. After suffering pain, feeling nervous, dizzy, weak and dragged-down by weaknesses of her sex, a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments.

Put up in both fluid and tablet form. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial package of tablets. Write for free confidential medical advice.

## "NOT POSSIBLE TO CLASSIFY" BY MACK SAUER

### GOOD-NIGHT!

The false teeth lay upon the stand,  
The roaches o'er the bacon creep,  
The flies are biting father's hand  
And everyone is sound asleep;  
Good-night--sleep tight!

The hooting owl does loudly hoot,  
The daughter snores and wakes the cat;  
The burglar takes his nightly loot,  
The kittens sleep in sister's hat;  
Good-night--sleep tight!

The housewife's jaws are silent now,  
She bawls out poor old dad no more,  
The rats are playing with the cow,  
The mice chew through the parlor floor,  
Good-night--sleep tight!

The bat is bathing in the cream,  
The fire is dying in the grate,  
The hired man does sweetly dream,  
The turtle slumbers with his mate,  
Good-night--sleep tight!

The rain is rotting all the wheat,  
The apples, blighted, will not keep,  
The worms are eating up the meat,  
But what care we when we're asleep?  
Good-night--sleep tight!

### POOR DOGGIE.

Old Mother Hubbard went to the cupboard  
To get her poor doggie some pie;  
She gave it a bite and early that night  
She thought the poor doggie would die.

## Junior Cross Word Puzzle

### HOW TO SOLVE PUZZLE

The words start in the numbered squares and run either across or down. Only one letter is placed in each white square. If the proper words are found each combination of letters in the white squares will form words. The key to the puzzle—the first word—is given in the drawing. Below are keys to the other words.

Running Across

- Word 1. In the background of the picture.  
Word 4. Stick used in playing the games of billiards or pool.  
Word 5. To obtain.  
Word 6. A weight. One-sixteenth of a pound.

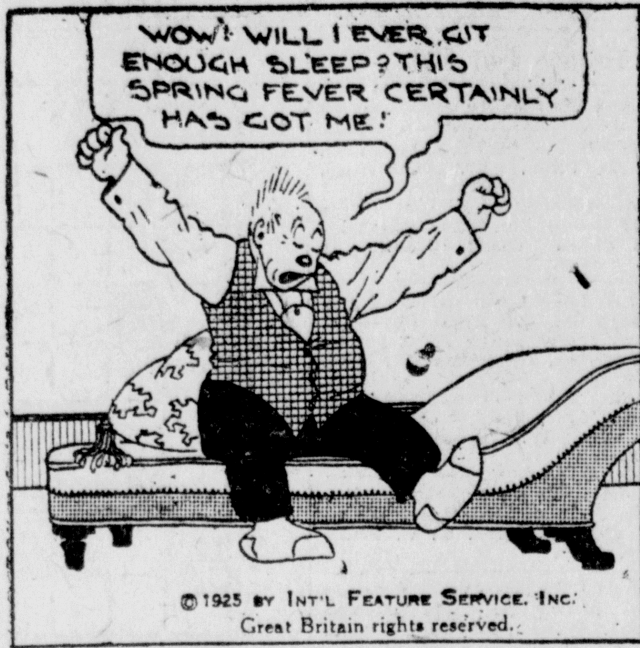

Running Down

- Word 1. A bird that lives in a clock and tells the time.  
Word 2. A western state.  
Word 3. Vessel in which water is boiled.

## MICHAEL'S MARRIAGE

By MICHAEL

### CHAPTER XXIII.

The wonder of Chicago, the spirit of the city as epitomized by Carl Sandburg, did not capture Michael Menlow for some days after he got his first glimpse of it, through smoke hanging perpetually over the railroad tracks that kept the Chicago river in close confines. He stood before the station for several minutes, awed and fascinated by the roar of the Loop.

An hour and a half later he was greeting Thomas Corin, manager of the Chicago office of the electrical works. He had been whirled in a taxi to a big hotel in Madison street, and then carried in another taxi to the office; so that his first impressions of the great city were the product of the roar in his ears, and not of anything he had seen.

He got into the habit of taking a taxi between the hotel and the office building, so he would not have to elbow his way through the crowds in State street, and he knew nothing of Chicago when, ten days later, Thomas Corin departed abruptly on a month's vacation, granted by telegraph by Arthur Manning.

It was apparent now to Michael that the president intended to keep him in Chicago for some time. He had been tricked, that was all. He did not doubt that the whole arrangement had been planned well by Manning.

On reflection it seemed to him that there was nothing he could do but reconcile himself to the situation. He couldn't defy Manning. He couldn't quit. He couldn't shirk and cause himself to be removed from Corin's job; his sense of loyalty to his father's old business wouldn't allow him to do that.

He determined to make the best of his lot, and to that end he devoted his evenings to familiarizing himself with the business and possibilities of the territory. He pored over the accounts, and went through the office's files of correspondence with customers. It seemed to him that Corin had been doing very well.

"What the devil does Manning mean by sending me here! I don't know anything about salesmanship. I might ruin our trade in this section." So he exclaimed to himself when he had completed his inspection of the files. That same evening he wrote to Manning that he was pleased to have this new responsibility. He determined to play Manning's game. And, completely occupied by his new work, he wrote Lilah less often.

But about the third week after his arrival in Chicago he began to get lonely. He no longer went to the office at night, but visited in turn all the theatres in Randolph and State streets, adjourning later in the evening to a cafe. He was bored, sitting alone while every one around him seemed so carefree and happy. He had never learned to amuse himself. Even at home he would have been attacked by loneliness without Alonzo Capper to turn to.

It was this loneliness that eventually caused him to seek out Elaine. She had come to his mind strongly the very first evening he felt the need of company. But, considering himself virtually engaged to Lilah, he felt, foolishly perhaps, that it would not be fair for him to enjoy himself in the company of another young woman. It must be remembered that Michael was really in love for the first time.

Then, one evening after getting down a lonely dinner with difficulty, he telephoned Elaine. Wonder of wonders! She didn't have an engagement for the evening, and her voice indicated that she would be very glad to see Michael. With a light heart and a box of bon bons he set out in a taxi for the South Side.

## Things to Know Before Baby Comes

YOU may learn the probable date of baby's birth. What you should have and what baby will need. These and many other important things are fully explained in a wonderful booklet sent free to all expectant mothers.

This booklet also tells when and how to use "Mother's Friend"—the much talked about rubbing preparation which relaxes the muscles and prepares the way for a comfortable period during expectancy and for a more natural delivery at childbirth. "I think 'Mother's Friend' saved my life," wrote one enthusiastic mother. "I was sick not over fifteen minutes," declared another. You will find these signed letters, and many more, in the booklet which you will receive.

"Mother's Friend" has been used by three generations of expectant mothers. Get a bottle today and experience the wonderful effect "Mother's Friend" will give you!

### FREE BOOKLET

Write Bradford Regulator Co., Dept. F-8, Atlanta, Ga., for free booklet (sent in plain envelope). Full directions for using "Mother's Friend" will be found with each bottle. "Mother's Friend" is on sale at all drug stores.

### WHEELER CROSS EXAMINED BY FEDERAL ATTORNEYS IN MIS-USE OF OFFICE TRIAL

#### SENATOR CALLED ON STAND AGAIN WHILE QUIZZED ON OFFER

Trial Centers Around Testimony of Hayes' Star Witness

Great Falls, Montana, April 23.—Senator Burton K. Wheeler of Montana, on trial in federal court here for alleged misuse of office, was to take the witness stand again today for continued cross examination by the government.

John Slattery, U. S. attorney, planned chiefly to question Wheeler about an alleged offer to split fees with George B. Hayes, New York attorney. Hayes testified Wheeler tried to get him to handle government oil permits for Gordon Campbell, Montana prospector, for whom Wheeler is accused of obtaining a fee to practice before the interior department.

On direct examination, Wheeler denied he met Hayes until the latter appeared as a witness before the Brookhart committee that investigated the department of justice in March 1924, a year after Hayes declared Wheeler proposed the alleged arrangement in a New York hotel lobby.

The whole fight in the trial has now centered around Hayes. The prosecution has placed its chief reliance for a conviction on Hayes' testimony, on which the defense has trained its heaviest guns.

With Wheeler dismissed, the defense had but one more witness here to call today.

That done, the defense was to make a fight to have accepted as evidence a telegram from George Lukett, Washington, D. C. telephone official. Lukett reported the company had no record of a long distance call to Hayes from E. S. Booth, formerly solicitor of the interior, said by Hayes to have arranged by telegram for the New York meeting with Wheeler.

Appressed of Lukett's telegram, Slattery instructed department of justice agents in Washington to search records for Booth's long distance calls. Until Washington reports, Slattery said he would fight introduction of Lukett's telegram and demand a recess of court until the department of justice completed its investigation.

The defense first asked for a two day recess to bring four new witnesses from the east to combat Hayes' testimony, but altered its plans after Wheeler testified he never talked with Hayes in New York.

The four witnesses are on the way here but cannot arrive until Saturday. If Lukett's telegram is accepted by the court, Senator Walsh, Montana, chief defense counsel, said he was ready to rest without introducing additional evidence, and probably would ask for an instructed verdict of acquittal after rebuttal by the government.

#### POSTOFFICE WILL OBSERVE NEW TIME

Announcement was made Thursday by Postmaster C. S. Frazer that the Xenia Post Office will adopt daylight saving time Monday, April 27, to make uniform time throughout the city.

Daylight saving time will go into effect in Xenia at 2 o'clock Sunday morning, as provided by the city ordinance and clocks will be shoved ahead one hour on that day.

In order not to cause confusion but to make the time standard throughout the city, the Dayton, Springfield and Xenia Southern Railway Company has also announced that schedules will be changed to the new time.

The Xenia Postoffice is not affected by the ordinance but makes it a yearly custom to adopt the new time every year to avoid confusion.

#### SOLDIER TO HANG

Manila, April 23.—Private William Johnson, U. S. army, was sentenced today to hang for the murder of Private William Willoughby. Johnson shot Willoughby after they quarreled as to the correct procedure on the rifle range.

#### HANGED FOR MURDER

Frederickton, N. B., April 23.—Harry Williams was hanged early today at the county jail for the murder of his two half nieces, Cynthia and Nedra Foster, at Posterville, November 25, last.

### THURSDAY IS QUIET DAY IN GAMBLING WAR; NO NEW ARRESTS MADE

Probate Court Denies Rumor Extra Warrants Sworn Out And Not Served

For the first day since what is termed an intensive campaign against gambling in the city was opened by Prosecuting Attorney J. Carl Marshall, no further arrests were made Thursday.

Seven Xenia and one Jamestown man are being held at \$500 bond each for appearance April 27 in Probate Court to answer to charges of gambling, race horse betting and liquor trafficking, as a result of the crusade which was inaugurated last Saturday.

Although no further arrests have been made nor affidavits filed and authorities were non-committal on the question of continuing the campaign, street rumors says a large number of warrants have been sworn out against Xenia business men wanted to be filed. Probate Court denied Thursday any further warrants had been sworn out there.

Credence is given the belief that the campaign may be renewed during the week, because of the additional \$500 allowed Prosecutor Marshall Tuesday with which to carry on the war against crime.

### LOS ANGELES IS ON RETURN JOURNEY

Hamilton, Bermuda, April 23.—The United States dirigible airship Los Angeles, left its moorings here at 9:40 this morning, sailed over the islands and headed north at 10:00 a. m. on its way back to Lakehurst, N. J.

Weather conditions were excellent as the Los Angeles got away. The sun was shining brightly. There were fairly high winds.

A large crowd witnessed the get-away. They cheered as the long cigar-shaped airship soared gracefully into the air. The ship had been moored to the United States tender ship Dakota, following its arrival here yesterday. This was the second visit of the Los Angeles to Bermuda.

### FORTY ONE MEMBERS OF FORCE CONVICTED OF GRAFTING LET GO

Fifty Eight Detectives, Police and Dry Agents Are Sentenced

Cincinnati, April 23.—Forty-one members of the Cincinnati police department who were either convicted or pleaded guilty to grafting on the illicit liquor traffic, were dropped from the force Thursday morning. Complying with civil service requirements, Charles E. Tudor, director of public safety, dismissed the men. The fate of the seven other officers whose indictments were nolleed by U. S. District Judge Smith Hickenlooper because of insufficient evidence, will be determined later.

Judge Hickenlooper Wednesday sentenced fifty-eight of the fifty-nine detectives, policemen and agents of county liquor courts who had pleaded guilty.

Patrolman Leo M. Meyers, who was too ill to appear, will be sentenced later.

In all, thirty-seven members of the police force and twenty-one dry agents were either sent to the Atlanta penitentiary or to jail. The three others who were dismissed from the department were Detective James C. Hayes, Fred Bullerick and Robert Kinney, who were convicted and also sentenced to Atlanta.

Joseph Laumann, Jr., who has a wife and eight children, was given only 30 days in the Miami County Jail late Wednesday. Other late sentences were Patrolman Alfred H. Weise, fourteen months in Atlanta penitentiary; Elmer Biswell, dry agent, one year and a day; Detective Fred Glimdick, a year and a day; Detective Witherow J. Graman, 30 days in Miami County Jail, \$500 fine; Urban C. Linkensdorfer, 30 days in Darke County Jail, \$500 fine; Robert E. ### THREE AMERICANS DIVORCED IN PARIS

Paris, April 23.—Three American women were granted divorces by the Seine tribunal today. Mrs. James Dwight Frances, born Katherine Gibbs and married in New York May 4, 1922, was the first.

Mrs. Raymond Palmer Rife, nee Suzanne Laguerre, was given a divorce and custody of a four year old daughter in a decree granted by default against Raymond Rife, whose address was given as Rockford, Illinois. The Rifes were married in Paris in 1919.

Mrs. Gilbert Brooke Perkins was the third to receive a divorce. She was formerly Miss Kate Fletcher and was married in Florida, in 1921.

### COOKING EXPERT SHOWS WAY TO SLIM SILHOUTTE

A large crowd of enthusiastic and appreciative women attended the Gazette and Republican Cooking School at McKinley Auditorium, Wednesday. Many of the audience had heard Mrs. Brown-Lewers Tuesday and came back again.

The remarkable thing to the mere man observer is that for more than two hours these hundreds and hundreds of women sat, happy and content, watching the quick confident movements of the great cook in the preparation of a full meal, while at the same time she keeps up a constant run of talk either upon the subject or something pertinent. Then the mere man observer arouses himself with a start and realizes that he too has been listening with intense interest on a subject he would have previously declared foreign and has been watching a performance in dexterous food-fixing that he never before had given more than casual attention.

Recipe leaflets are supplied each day at the Cooking School, thus adding to their repertoire during the week for Xenia housewives many new cookery ideas.

The planned steak, of Thursday, garnished with French fried onions, beaten potatoes and other vegetables, was a dish which would have tempted any masculine appetite. Mrs.

### INTEREST CENTERS IN AMENDMENTS AT NOVEMBER ELECTION

McDonald Taxation Bill Will Be Pushed In Propaganda

Columbus, O., April 23.—Greatest interest in the November elections in Ohio, is expected to center in the four proposed amendments to the state constitution which are to be submitted to the people for ratification.

Most important of the group and the one which is likely to be object of a powerful propaganda campaign during the summer and autumn is the McDonald taxation proposal, modifying the uniform rule and laying the foundation for a modern scientific taxation system to replace the system under which the state now operates.

The proposal was defeated at referendums in 1921 and 1923.

A statewide organization is now being built up among organizations interested in the proposal to present the merits of the proposed amendment to the people and a fund of sizeable proportions is being raised to defray expenses of the campaign. The amendment would give the legislature authority to classify intangible property for taxation and to remove automobiles from personal property taxation.

The second measure to go before the people is the Sweeney resolution, Farnsworth resolution. Proposing amendment of the constitution by writing into the organic state law the "pay as you go" debt limitation provisions of the Grsworld act—that no bonds shall be issued for current expenses, for acquisition of property or for improvements having an estimated usefulness of less than five years, nor for amortization over a period longer than the estimated life of the improvements. The legislature proposed to write these limitations into the constitution to prevent their repeal without vote of the people.

Another amendment to go before the people is the Sweeney resolution, providing four year terms for all elective state and county officials except judicial officers and members of the legislature.

A strong campaign in support of this is also expected to be organized. The fourth proposed amendment is the Marshall-Lipp "city planning" proposal, providing that municipalities in acquiring property for a public improvement may assess the cost against benefited property, whether abutting the improvement, contiguous to it or otherwise located.

### FEDERAL ENFORCING AGENCIES TO MERGE FOR GREAT CAMPAIGN

Andrews Calls Meeting To Organize Officials for Program

Washington, April 23.—The greatest criminal drive in the history of the government is planned by the Coolidge administration through practical merger of all federal law enforcing agencies, the International News Service learned today.

Every crime detecting branch of the government will be called into the drive and their combined ranks thrown against run runners, dope peddlers and alien smugglers, if a program drafted at the treasury department is adopted.

The chief object would be to erect an impenetrable barrier on all American border lines.

To perfect this gigantic federal crusade against crime, assistant Secretary of the Treasury Andrews, decorated by the government for his organizing genius, has called a conference for tomorrow.

Representatives of the state, labor, treasury and justice departments will discuss means of co-operating the efforts of customs agents, public health officials, department of justice agents immigration authorities and the consular service to build a stone-wall defense against smuggling.

The program is understood to have the sanction of Attorney General Sargent, Secretary of the Treasury Mellon and other high officials, who have agreed that emergency measures must be taken to smash the smuggling evil.

It was expected that the rounded out plan would be submitted to the president and that possibly an executive co-ordinating order would be required.

Under the present system of border protection, there is an absence of centralization of effort and a general conflict of authority among the various agencies, it was understood. The merger of federal agencies was suggested to correct this evil.

An official investigation disclosed that various arms of the border patrol have not been working in entire harmony. A clash between agents of the prohibition unit and immigration service at Detroit was recently reported to the labor department.

Other petty jealousies have arisen preventing effective law enforcement, officials said.

Instead of acting independently, as under present regulations, agents of the state, labor, treasury and justice departments will co-operate and will be held jointly responsible for the enforcement of all laws pertaining to border protection if the merger is effected. This would send a tremendous army of federal agents into the field searching for all violators of federal laws.

The proposed "merger" has frequently been suggested in congress but the conference tomorrow will be the first step in that direction ever taken by the executive branch of the government.

### THREE INJURED

Cleveland, O., April 23.—Three persons were injured today when a crowded bus from Berea to Cleveland overturned in West Park, according to reports to police.

#### SUSPECTED ATTACK

Pomeroy, April 23.—Elias Justico, 65, who thought his home was being filled with poison gas by his enemies and who used a shotgun in guarding his property, was jailed here. His wife was said to harbor similar hallucinations. The aged couple, otherwise, were said to be excellent citizens.

### COOKING EXPERT SHOWS WAY TO SLIM SILHOUTTE

Brown-Lewers recommends this method of glorifying the plebeian and often despised onion, and also suggested that these luscious-smelling vegetables sliced in rings, dipped in beaten egg crumbs, may be fried with very pleasing results in deep fat.

Mrs. Brown-Lewers makes a strong appeal by her practical use of every day dishes of this kind, talked about in simple terms and also by her use of what she calls household measurements.

Women already are complaining that the school does not last long enough, voicing regret that Friday's session will be the last. Many requests have been received to have Mrs. Brown-Lewers here again, and hopes were expressed that her coming will not be long delayed.

The lecture-demonstration Wednesday was preceded by a concert by the Boys' Band of the O. S. and S. O. Home, under the direction of Professor Seal. The band played three selections and a saxophone sextette was featured. The entire program was well received.

The following women were given baskets of groceries Wednesday afternoon: Mrs. Lillie Jackson, R. 9; Mrs. Carl Ervin, South Detroit Street; Mrs. Michael Rachford, Center Street; Mrs. Frank Owens, Cincinnati Avenue; Mrs. N. Whittington, North Detroit Street; Miss Mary Ater, R. 10. Among those who received the six cakes, a pie, and a salad made on the platform: Mrs. Mary A. Ellis, West Market Street; Mrs. Irma B. Barley, Wilberforce; Mrs. Leigh Taylor, West Market Street; Miss Grace Davis, West Market Street; Mrs. Lillian Wolf, North Detroit Street; Mrs. Raymond Osborne and Mrs. Oscar Swigart, Xenia.

Eleanor McDonnell sang a group of songs, accompanied by Miss Margaret Kampman. Thursday afternoon, before the program.

Mrs. Brown-Lewers' subject Thursday afternoon was "The Quest of the Slim Silhouette," and she brought out the importance of the proper foods for a correct diet.

The menu for the afternoon was planked steak, creamed vegetables in timbale cases, French fried onions, surprise chocolate puddings, spiced apples and "An Angel's Dream." An orchestra has been engaged for a special concert on the closing day, Friday.

#### Love Test Wins

A year's love test has reunited Lamarr Brace, of Detroit, and his bride, who was Ruth Cole. Their secret marriage is now made known. The young couple eloped, and their families, to test their love, compelled them to live apart for a year. The parents of both are now convinced the wedding is for the best. The bride and bridegroom are now on their long delayed honeymoon.

### WITNESSES CALLED FROM COLUMBUS IN LIQUOR LEAK PROBE

Hayner Scandal May Be Extended To Other States Is Reported Now

Cleveland, April 23.—Thirteen Columbus witnesses including ten former and present stockholders in the physicians and druggists supply company, were slated to appear before the federal grand jury investigating second phases of the liquor leak from the Hayner Distillery, at Troy through the Armand Drug and Candy Manufacturing Company of Cleveland.

This newest development in the probe today involves for the second time persons at Columbus. Columbus first was moved into the spotlight when federal enforcement officials there were indicted among the ten against whom charges were made by the first special jury.

Three prisoners from Atlanta penitentiary who were sentenced for conspiracy to violate the prohibition laws at Pittsburgh not long ago, were brought here last night with the expectation that they may furnish other new angle to the investigation. It was reported that they made an important statement to the federal officials in charge of the probe here, including Mrs. Mabel Walker Willebrandt, assistant attorney general.

Indications today were that the scandal which first settled down on Ohio, has reached a broader scope, and probably will lead to this disclosure of a chain of irregularities which will reach into Pennsylvania and Michigan.

Columbus witnesses to testify today are: D. E. Monas, president and treasurer of the Physicians and Druggists Supply Company; A. A. Barriek, vice president of the company; B. H. Miller, former treasurer and Jennie Miller, Morris, Jacob and Lillie Sone and May Eversole who were attached to the company.

### SLIGHTLY INJURED WHEN CARS COLLIDE

Charles Rheubert, Xenia, sustained a sprained ankle when the automobile in which he was riding was struck by an auto driven by Earl Babb, Jamestown, R. R. 3, at the Davis Oil Company filling station, South Detroit Street, Wednesday night.

Babb was driving north on Detroit Street when his car collided with the auto turning into the filling station. Earl Bone, New Burlington pike, driver of the automobile and Cecil McClannahan, another passenger in the auto, received bruises. Both autos were only slightly damaged. Rheubert's injury was dressed by Dr. C. G. McPherson.

### ALLEGED CHURCH PLOT WAS INSTIGATED BY SERBIAN INTERESTS

Foreign Office Denies Reports of Wholesale Executions

London, April 23.—M. Prutkin, leader of the agrarian party and former chief of police of Sofia, and M. Muravieff, former minister of war in the Stambulinsky, or peasants party cabinet, were assassinated today, according to Central News dispatches from Sofia.

The same agency in Belgrade dispatches that the Jugo Slav government had demanded that the Bulgarian government apologize for accusations from Sofia that the attempted uprising in Bulgaria was instigated in Serbia.

The Jugo Slav government threatened to break off diplomatic relations, if Bulgaria refused to comply, the agency dispatch added.

M. Rousseff, minister of the interior, made the first direct charge against Jugo Slavia at yesterday's session of the Bulgarian parliament. He quoted the bell ringer of the cathedral as saying that Captain Minkoff had assured him before the explosion that he would be taken safely across the frontier in an automobile of the Jugo Slav legation.

Minkoff was the ex-army officer who placed the bomb under the dome of the cathedral. He was shot by the police Monday.

The British foreign office stated that it believed reports of wholesale executions in Sofia had been inspired by communists in Vienna and that it had discounted the reports accordingly.

"The Bulgarian government has acted with great restraint and has the situation well in hand," said M. Misher, the Bulgarian minister to England. "I received a message late last night, asking me on behalf of the Tsankoff government officially to deny reports of wholesale arrests and executions in Bulgaria."

Budapest, Hungary, April 23.—The newspaper Pestnaplo today said that the British and American ministers in Sofia had intervened and asked the Bulgarian government for more humane treatment of prisoners. The move was prompted, the newspaper said, by rumors of executions.

Athens, April 23.—Greece, Jugo Slavia and Roumania will protest to the conference of ambassadors against any increase in the Bulgarian army, it was learned today. They will contend that Bulgaria's present force are sufficient to preserve order and that they already exceed the limit set by the treaty of Versailles.

### BOLIVIAN EMBASSY ATTACHE ARRESTED AFTER FREE FOR ALL

Senor Gets Rough With Cop Who Interrupts Alleged Wild Party

Washington, April 23.—Diplomatic circles were stirred today by the arrest of Senor Don Jorje Blaud Jofre, attache of the Bolivian embassy following a free for all fight with a policeman.

Jofre was finally overpowered and taken to a police station where he claimed diplomatic immunity and was released. The attache battled with Policeman W. J. Middleton in a Fourteenth Street restaurant, according to police records, when the latter attempted to quell a disturbance caused by Jofre and a party of friends.

The policeman charged Jofre's party was "passing a bottle around" and tried to force him to take a drink. Jofre fought arrest and in the battle, the policeman was thrown through a glass door, suffering cuts on his limbs.

#### WILL CUT NURSE

Glouster, April 23.—City officials are considering topping off the salary of the public health nurse in order to save money. The city's bonded debt is so heavy that all the income from taxation is needed to meet bonds and interest. The only real income of the municipality is from fines and auto taxes.

#### TAKES POISON

Lorain, O., April 23.—J. D. Wood, service station tender, whose wife disappeared mysteriously last Monday, was dead today by his own hand. Wood took strychnine while on duty last night and died shortly after being taken to a hospital.

## MONEY AT WORK

Brief but Important Lessons in Finance Markets, Stocks, Bonds and Investments

N. C. F. asks, "Should any stocks be included in my investment list?"

Yes, if they are high grade stocks. For one thing, the rate of return on high grade stocks is often greater than on high grade bonds. The share of stock is also an entirely different thing from a bond. A bond represents the indebtedness of the company to you; a share of stock indicates that you are part owner of the company.

There is also a chance of picking up a few mildly speculative dollars on even the best of stocks, and the business man who can afford to take some risk in his investments ought to find many stocks attractive investment propositions.

This article advocates the buying of any stock OUTRIGHT and not on MARGIN. Marginal trading is entirely outside of the investor's field.

## An easier way to make tempting cookies

BY MRS. MARY BROWN LEWERS

Mrs. Brown-Lewers is in charge of the popular Gazette-Republican Cooking School classes. Below she gives four recipes for cookies that will delight the heart of any child.

Isn't one of the fondest memories of your childhood your visits to Grandmother's old stone cookie jar? Grandmother had to stand and roll and cut out cookies, but she always seemed to find time to do it.

But today we have an easier, quicker way to make cookies than Grandmother had. The cookies for which I give recipes

below call for no rolling or cutting. I'm sure that they will gladden the heart of any child or grown-up.

Save these recipes. When you see how quick and easy it is to make them you will not let your children grow up without the memories of Mother's wholesome Crisco cookies, to tell their children about.

### Nut Wafer COOKIES

Sliced instead of rolled and cut. Use Crisco and see how easy it is to cream with sugar. Crisco keeps so long you can double this recipe and keep the rolls in the ice box a long time, slicing and baking as you need them.

All measurements level.  
1 cup brown sugar  
1 cup white sugar  
1 1/2 cups melted Crisco  
2 cups pastry flour, sifted twice  
2 eggs, well beaten  
2 teaspoons soda  
1 teaspoon cinnamon  
1 cup molasses  
1 cup chopped nuts (blanched almonds are best)  
1 teaspoon salt

Cream Crisco with sugar. Add eggs slowly mixing thoroughly. Add nuts. Then dry ingredients sifted together twice. Shape into roll about 2 1/2 to 3 inches in diameter. Put in Criscoed pan in ice box overnight. When ready to bake, slice and bake in hot oven (425 degrees Fahrenheit). Makes about 75 cookies.

### Grandmother's Old Fashioned Ginger COOKIES

Made the new easy way—no tiresome rolling or cutting. Crisco is always ready for instant use and is easy to cream with the brown sugar. Grease your pans with Crisco and drop the cookies far enough apart to keep them round.

All measurements level.  
1 cup brown sugar  
1 cup molasses  
1/2 cup Crisco  
1 egg, beaten  
1 teaspoon ginger  
1 teaspoon salt  
1 teaspoon soda  
1 cup sour milk  
3/4 cups pastry flour

Cream Crisco, sugar and salt together. Add molasses and ginger, then egg. Dissolve soda in sour milk. Add, mix thoroughly. Last add flour. Drop teaspoonfuls of batter on a Criscoed baking pan and bake in a medium oven (375 degrees Fahrenheit). Makes about 50 cookies.

### Caramel or Butterscotch COOKIES

Another sliced cookie—without nuts. Crisco will keep these cookies fresh, too, both before and after baking. The flavor improves if they are kept in an air-tight container. Try empty Crisco tins and send a Crisco can of Crisco Cookies to the boy or girl away at school. Grease your pans with Crisco to keep every cookie whole.

All measurements level.  
4 cups dark brown sugar  
1 cup melted Crisco  
4 beaten eggs  
1 teaspoon salt  
7 cups pastry flour  
3 teaspoons baking powder

Follow the method for Nut Wafer Cookies. Makes about 125 cookies.

### How to make COOKIES in half the time

1 Lay out on your work table and measure accurately all the ingredients the recipe calls for. Get out all utensils needed.

2 To measure Crisco accurately, if one-half cup is needed fill cup one-half full of water, add enough Crisco to bring water to the top, drain water off. Then follow method given in the recipe you are using.

3 Grease pans with Crisco and stack on the table. Drop spoonfuls of the batter far enough apart to prevent running together.

4 When baked, remove to board to cool. Use the same pans over and over without washing. Simply shake out possible crumbs and brush over with Crisco.

## BLUE RIBBON CHILD IS SOUGHT BY STATE HEALTH DEPARTMENT

Is there a perfect child in Xenia or Greene County?

Is there a child that is rated by his physician and teacher to be mentally normal, physically free of defects, reasonably cooperative in the practice of health habits and satisfactory in his behavior and attitude in the school environment?

"If such there be, go mark him well." For he, or she, as the case may be, is the child the Ohio Public Health Department is looking for, according to Mrs. Della H. Snodgrass, Xenia, state director of health of the W. C. T. U. and member of the state health committee of the state health organization.

The above requisites for the "Blue Ribbon" child sound within the reach of every youngster, but are reached after the most rigid living and examination.

For him to be mentally normal the child must have a mental capacity to attain a general high average grade, or its equivalent in school work.

For him to be physically normal he must be of standard weight; not more than 10 percent under or 20 percent above the average weight for his height; he must be free from remediable defects or chronic disease, including hearing normal and no chronic discharge from ears, vision good in both eyes, with or without glasses, and eyes free from any chronic infection or abnormal condition; nasal breathing unobstructed and nose free from any chronic discharge or exudate, tonsils rated as normal or removed, all teeth free from cavities or all cavities filled and all badly decayed teeth extracted; no enlargement of the thyroid gland and no marked chronic enlargement of the glands of the neck, the skin and scalp clean and free from any chronic disease or abnormal condition; no evidence of anemia, no orthopedic deformity, such as club foot, marked bow legs, or any other marked physical deformity; posture satisfactory and no evidence of chronic organic disease involving the heart, lungs, or other organs of the nervous system, such as tuberculosis, heart disease, nephritis, chorea, habit spasms, etc.

To be reasonably cooperative in the practice of certain health habits, he must be physically clean, face, neck, ears, hands and finger nails cleaned daily teeth brushed daily, one complete bath once a week, clothes clean and neat, clean handkerchief daily, good personal habits of cleanliness such as clean desk, floor and surroundings, obtaining sufficient sleep, must sleep at least nine hours every night with open windows, eat well selected food, drinks one pint of milk a day, eats some vegetables daily, such as carrots, beets, peas, beans, onions, tomatoes, etc., eats some greens regularly, such as cabbage, spinach, lettuce, celery; eats some fruit daily, eats some cereal daily, obtains plenty of fresh air and exercise, spends some time daily in outdoor play or exercise, proper clothing free from cigarette habit.

The campaign for "Blue Ribbon" children is being put on by the State Health Department, in connection with Child Health Day, May 1. Due to the short time before May 1, and the fact that a health-school demonstration was recently staged by Xenia schools, Child Health Day will not be widely observed in the city. The campaign, however, will be held during the coming year and publicity is being forwarded by Mrs. Snodgrass to the schools over the county.

## PYTHIAN OFFICER GIVES STIRRING ADDRESS IN XENIA

The high ideals and ethics of the Knights of Pythias Lodge and the fraternal benefits gained by members of the lodge, were brought out in the stirring address of Frederick S. Attwood, Minneapolis, Minn., prelate of the supreme lodge, before the Greene County Lodge, Wednesday night at the Klan Tabernacle.

Mr. Attwood's subject was "Riding the Goat" and he emphasized the different benefits gained through membership in the order. He cited the history of the lodge and the various movements and big achievements of the fraternal order.

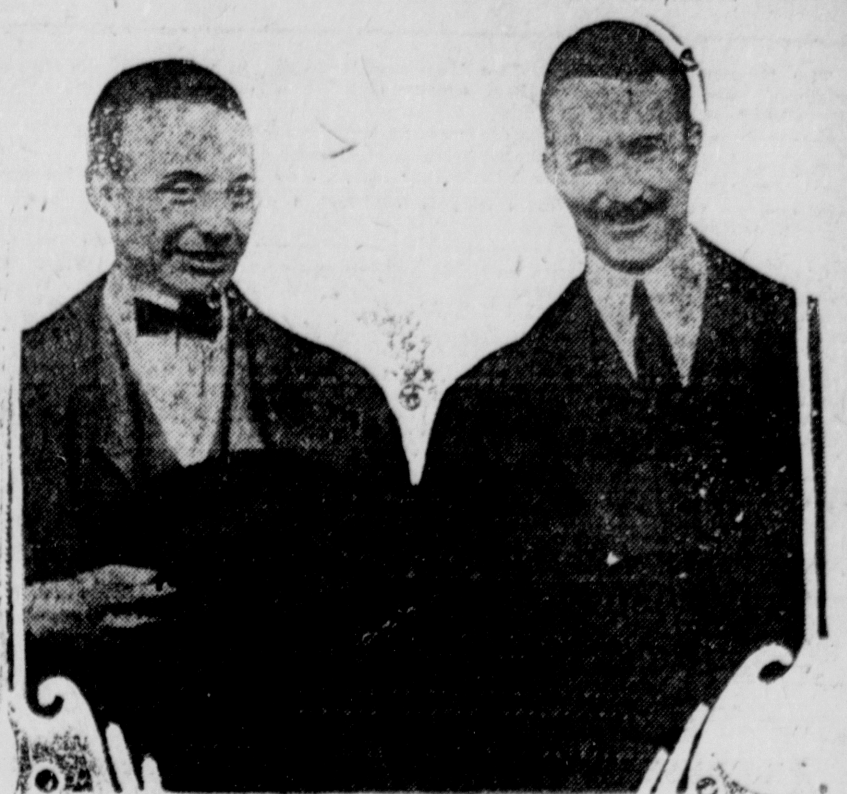

He visits lodges over the United States and the lecture delivered in Xenia was one of the most popular of his repertoire.

Mr. Attwood's address was followed by a short talk by Judge A. H. Kunkle, Springfield, grand chancellor of the K. of P. Lodge. He praised the work and ideals of the organization.

About 300 members of the lodge from over the county attended the meeting. About twenty-five lodge members attended a banquet in Mr. Attwood's honor at the Goody Shoppe at 6 o'clock.

Music by the Harmony Kings orchestra preceded the addresses.

## REDS FIGHT RELIGION

ARCHBISHOP TIKHON was a sturdy upholder of the rights of the Russian Church against Bolshevik persecution, and his death will remove one obstacle to its success. Though he was imprisoned for months and finally banished to a monastery, his very misfortunes made him an even more formidable enemy than if he had remained in power. He became a martyr in the eyes of a great majority of the Russian people. The party within the Church that advocates compromise with Bolshevism no doubt will gain strength now that he is gone. But those who believe that such a policy will advance the cause of religion are doomed to disappointment.

It should be borne in mind that the Soviet Government has undertaken, not only a contest against one religious body, but also a crusade against every form of Christianity. This was made very plain by Captain McCullagh, who was able to report at length the trial of members of the Russian clergy, at which sentences of imprisonment or of death were imposed. His subsequent volume revealed the full animosity of Bolshevism to the Church. More recently the Russian correspondent of the London Morning Post has given authentic details of the persecution. "We must fight religion," Lenin said as long ago as 1909; and this is the settled Bolshevik policy. No holder of office can participate in any form of religious observance. "Faith in God," writes Yaroslavsky, "prevents people from enjoying life, prevents them from fighting with assurance, from acting with decision and with courage." From this premiss it is easy to deduce the theory that religion is the foe of the State.

The banning of religious ceremonies, the forbidding of religious instruction to children, the denunciation of "bourgeois morals" and of the Bible as "a book of bitter hatred"—all these things are convincing evidence of the Bolshevik attitude. While Tikhon lived, a spiritual power to combat it remained. There seems to be no one in Russia to take his place. Many have lost their faith and many are afraid to profess it.

## ON THE WRONG FOOT

SENATOR WALSH of Montana has never seemed the same since he acted as chairman of the oil investigating committee of Congress. Public affairs of all kinds to him have assumed the form of conspiracies. They are hiding behind every tree box. Senator Walsh knows it because he has seen their skulking forms. In the circumstances he is on hand to guard the interests of the people.

His latest discovery is a "well-organized movement to discredit Congress in order to help the administration to put through the Mellon tax plan" with the greatest reductions in the high brackets." It now seems probable that it will be possible to reduce taxes to the extent of about \$300,000,000, and the Senator is of the opinion that the same philosophy of tax reduction will be applied to this bill as was applied to the one that went through the last Congress. "It will call for the greater reduction in the high brackets, and the alignment in opposition will be similar to that which defeated the first Mellon tax bill."

Reading this, one must have the depressing feeling that Senators who stick too close to Washington fail to get in touch with the sentiment of the country. If Senator Walsh was only fair to himself he would admit that the overwhelming voice of intelligent people was in favor of the first Mellon bill, and that Congress in refusing to pass the measure in the form that was desired by the administration really defied public sentiment. Now the people are satisfied with the leadership of President Coolidge and Secretary Mellon, and those who flout that leadership will only weaken their own influence.

The dispute over the reduction in the high brackets might be continued until doomsday without getting everybody to come to an agreement. But, in substance, men like the Senator from Montana claim that these reductions unduly favor the rich, while Secretary Mellon and his predecessors in the Treasury—Republican and Democratic alike—say that they are the sure way of enticing capital into business, thus insuring greater revenue to the Government. And greater revenue, with economy of expenditure, means lower taxes for all.

Senator Walsh takes himself too seriously. What he speaks of as "these attempts to break down the confidence of the public in Congress" is due to members of Congress themselves and to no one else.

## DIGNITY

My sense of humor says "tee-hee,"  
Unto my solemn dignity.

My dignity would strike a pose  
And be an image wearing clothes.

I think 'twould rather be refined  
Than either lovable or kind.

It paints me greater than I am,  
And glories in the frills of sham.

Whenever I am dignified  
My children run away and hide.

When lofty manners I assume  
My dog gets up and quits the room.

Full-panopied with dignity  
My best friends wouldn't smile to me.

My sense of humor laughs out loud  
To see me arrogant and proud.

Though dignity in some is good,  
In me 'twould be misunderstood.

I couldn't be myself and hold  
The world at bay with manners cold.

If joy is running with a grin,  
I take the dare and plunge right in.

I can be dignified and will  
When life no longer holds a thrill.

I'll wear a solemn face and keep  
The graven look of wisdom deep.

My friends shall see me dignified,  
The morning after I have died.

Although I cannot always hope to have knitting and crochet directions for which my Reader Friends ask, I am glad that I happen to have the bed jacket requested by "Anne" and the "pretty scarf with holes in it" which "Mrs. W. D." wants.

Invalid's Bed Jacket: Buy three balls of pink silk shetland and two balls of white four-fold Germantown wool. Also one pair of number six bone knitting needles and one pair of number 13 steel. Using the steel, cast on 68 stitches with the silk shetland K 2, P 2 for four inches, then change to the number six bone needles and knit plain for seven inches. Now knit one rib of the Germantown and one rib of the shetland alternately till the work measures 20 inches from purling, then increase one stitch at one

end only every other row for seven inches; next, start decreasing in the same way you increased, till 63 stitches remain. Work 20 inches on these 63 stitches, then break off the Germantown and finish second end same as first. Sew up the cuffs to where the Germantown starts, then with silk shetland and a crochet hook, work a shell all around the neck edge and leave streamers in front, to tie. When done this little jacket resembles a wide scarf across the shoulders in back, the ends of which are formed into a short sleeve with a cuff.

Knitted Scarf with Hole Pattern: Materials: four large balls (or seven small balls, one ounce to the ball) of either shetland floss or zephyr floss, and one pair of bone or amber knitting needles size six. Begin by casting on 70 stitches. Knit 12 rows.

**CORNS**

Row 13: Knit ten, \*, bring yarn forward, knit two together, knit three, repeat from \*, knitting the last ten stitches plain.

Row 14: Knit all stitches on needle.

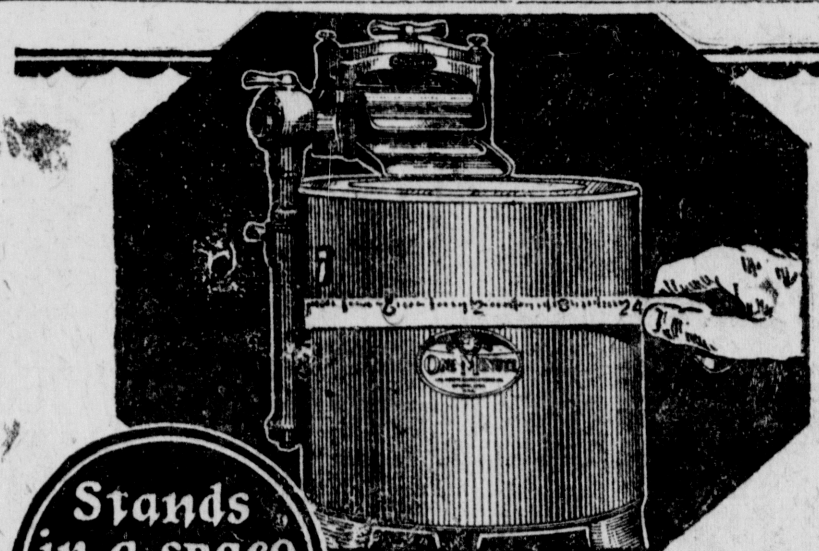

Repeat these 14 rows until the work measures one and three-quarters yards long, ending with 12 rows plain. The Fringe: This may be a seven-inch-deep tied fringe. Or it may be the new Belgian Loop Fringe, made as follows: Using a crochet hook, make a chain eight inches long. Fasten the loose end into one end-corner of this scarf and put the crochet hook into the edge of the scarf at about one inch from that point—thus forming a loop which hangs down like a tied fringe. Continue making these loops all along the edge, then come back over the same ground looping the chains up between the former loops.

## Today's Talks

## GARDENS

I have always regarded money spent for books, art, lovely things, and flowers as money invested. For every time you put beauty into your heart you put wealth and riches into it also.

One thing I love about spring is that it brings the gardens. And no matter how small a yard you may have or if you have none at all, you should have a little garden somewhere. If only it be a box in the living room.

I can hardly wait until garden planting time comes around and the sad part of the year is when I realize that the garden will soon have to give way to winter.

Never shall I cease to wonder over the mystery of the natural color and odor in flowers. The other day I was walking over a dry deserted place and I came across a tiny blue blossom. I picked it and stood for a long time studying its delicate and

wonderful formation. I could think of it in no other way than the exquisite expression of the great Creator's thought.

Have a garden!

Plant it yourself, weed it yourself and make it a part of yourself. The more beautiful you make it the more other people will love it with you.

I know of nothing that soothes, rests and sweetens the spirit like a lovely garden.

God must have wanted us to make gardens for ourselves else He wouldn't have hidden away so many all over the earth for us to stumble onto.

Gardens take one's thoughts away from selfish considerations and show how akin are all life and all nature and all forms of beauty.

You will miss spring and the sweetened breath of summer and the golden songs of the autumn if you fail to hide away a little love in a garden of your own.

## ADVISES DAIRMEN TO WATCH EXPORTS

Ohio dairymen can afford to watch with increased respect export reports from foreign nations this summer. "The five principal exporting countries," explains R. F. Taber, extension specialist in rural economics at the Ohio State University, "that in 1923 increased their exports of butter by 63 per cent since before the war. This increase is continuing."

"Canada, because of her nearness a strong potential competitor for our market, increased her exports seventy per cent in 1924 above those of 1923. New Zealand and Australia both show substantial increases for this past winter."

"The big surplus of a year ago were moved mainly because Germany, which during 1923 bought very little butter, came back and is now on her normal level of imports. But further increase in demand cannot be expected. For this reason people familiar with the situation are freely predicting that American dairymen will soon be feeling foreign competition for the American market."

Combined with this foreign situation, Mr. Taber points out, is the fact that pasture and cheap summer production are still to be heard from this year. During May, June, July and August about one half of the butter supply is produced.

The United States furthermore, reports an increase of 2.2 per cent in the number of dairy cows since January, 1924.

## MRS. NICKELL GIVEN VERDICT FOR \$2,500 DAMAGES BY JURY

Mrs. Logan Nickell, administratrix of the estate of Volney Nickell, deceased, was awarded \$2,500 in her \$25,000 damage suit against Lincoln Funderburgh, former sheriff by a jury in Common Pleas Court Thursday afternoon.

Eleven members of the jury concurred in the verdict which was returned after an hour and three-quarters deliberations. A previous jury had given the plaintiff \$5,000 damages but the Court of Appeals set aside the verdict and remanded the case for new trial on the grounds of an error in the charge to the jury.

The defense rested its case Wednesday afternoon at 3 o'clock after which Attorney C. L. Darlington for the plaintiff and F. J. Johnson for the defense presented their arguments. Attorney Harry D. Smith for the plaintiff and C. J. Mattena, Dayton for the defendant, argued Thursday morning. The jury was given the case at 11:50 o'clock.

The suit was the outgrowth of the fatal shooting of Volney Nickell by a sheriff's posse in 1922.

## MEAT CUTTING WILL FEATURE COOKING SCHOOL LECTURE

Edward Focke, of the William Focke and Sons Packing Company, Dayton, will give a lecture and demonstration on the proper cuts of meat, at the Gazette and Republican Cooking School, at the McKinley Auditorium, Friday afternoon.

Mr. Focke has delivered similar lectures over the country. His appearance here will be an added feature of the closing day of the cooking school. A similar lecture and demonstration was given by the Focke Company at last year's school, under the auspices of these papers.

Housewives who want to know how to select the proper cuts of meats at the market or seek knowledge of how to cut meat in their own kitchens will be rewarded in attending the lecture.

## REV. JOHN KUHN SENT TO SPRINGFIELD

Appointment of the Rev. John E. Kuhn, former acting pastor of St. Bridget Catholic Church, this city, as assistant pastor of St. Raphael Church, Springfield, was announced Wednesday. Father Kuhn assumed his duties in Springfield Thursday.

He succeeds the Rev. Edward J. Quinn, who recently left Springfield to become pastor of St. Ann's Parish, Cincinnati.

The Rev. Father Kuhn resided in Cincinnati before beginning his novitiate at Mt. St. Mary's and was located in Xenia for several months after the Rev. Father Albert A. Burke, was appointed pastor of Corpus Christi Church, Dayton. He has been an assistant at the cathedral at Cincinnati since leaving Xenia.

## BICYCLISTS MUST GET NEW LICENSES

Owners of bicycles who ride their vehicles without lights at night and without first obtaining new licenses are coming within the pale of the law.

This warning was issued Thursday by Police Chief M. E. Graham, who declared that a city ordinance provides a penalty for violation of this law and the provisions will be rigidly enforced. Owners of horse drawn vehicles are also required to have licenses and show lights at night by a city ordinance, according to Chief Graham.

Owners will be allowed until May 1 to obtain licenses and comply with the law.

## EAST END NEWS

Edith May Anderson, nine-months-old daughter of Mr. and Mrs. Hal Anderson, 26 Columbus Avenue, died Tuesday night at 8:15 o'clock at her home from an attack of pneumonia. She leaves besides her father and mother, one brother, James.

Funeral services will be held at the residence Friday afternoon at 1:30 o'clock with interment in Tarbox Cemetery.

The C. M. E. Mission will hold its regular prayer service Friday evening at 7 o'clock. All friends and members of the mission are invited. Mrs. Maggie Hargrave, leader.

**Health Hints**  
by the  
**Father of Physical Culture**

Eating three or more meals daily that are not intensely enjoyed, as a habit is criminal. It is worse than criminal, because as a rule you sit down to a meal before the previous meal has been fully digested. The crazy idea that food is needed merely to keep up your strength has filled thousands of graves.

Learn to eat what you need. Learn to scientifically feed the human machine. Don't dissipate in work. Don't be excessive in anything. Take care of your body. It is the only one you have. Don't wear out the vital organs compelling them to handle from two to four times as much food as is needed to fully nourish your body.

Any attention that is given to these important subjects will be repaid over and over again, hundreds yes, thousands of times, not only in increased physical health, but your earning power financially will be vastly increased. You will be a better man, a stronger woman, and life will open up opportunities under these changed conditions that will amaze you.

There is a healthy expenditure of energy that is beneficial to all concerned, but the great trouble with the American race is that it shirks this healthy expenditure and then goes to excess in those things where excess ultimately produces disease, unhappiness, misery and death.

A child drinks carbonic acid, men and women are partially suffocated by the escape of illuminating or sewer gas, painters and paper hangers are poisoned by chemicals used in their profession, while communities are poisoned by impure water. In this category belongs the use of tobacco, and alcoholic liquors. I might also add highly seasoned foods, etc.

There are many professions whose followers have our heartiest sympathies. In their struggles to gain a livelihood they seem compelled to engage in industries which are direct producers of disease.

But what shall be said of those men who wilfully, deliberately and habitually take into their bodies for a more temporary pleasure those substances that the experiences of the ages have taught us are great and awful producers of disease? I refer to the use of alcohol and tobacco.

## Face of Mountain Blasted Off to Make Way for Scenic Motor Road Along Coast Near Los Angeles

Tunnels Cut Into Steep  
Sides of Rock and Filled  
With Black Blasting  
Powder

THE scenic beauty of the coast of California compares favorably with any coast of the United States, and in order that motorists may enjoy the pleasures of a tour along the water front of the California Highway Commission is building roads, which skirt the shore in some almost inaccessible places. One of these is the

BLASTED MATERIAL REMOVED BY STEAM SHOVEL

Ventura Coast from Oxnard in Ventura County about fifty miles west of Los Angeles to San Juan Capistrano about fifty miles south-east of Los Angeles. The coast in some places is very rugged and precipitous and when the engineer has surveyed the proposed route he hands to the contractor a real problem to meet in reducing the route to grade.

One of the most difficult sections of this highway is between Oxnard and Santa Monica, where the Santa Monica mountains slope to the sea. In this section which is known to the California Highway Commission as Division No. 7, there is a stretch of ten miles from which more than a million cubic yards of rock and earth have been removed. The road bed must be very firm to stand the constant pounding of the waves and this required that in some cases the road bed be benched in solid rock. From one section 3,500 feet long,

there were removed 250,000 cubic yards of material.

To some sections the steam shovels and other equipment had to be brought by water as they were inaccessible by land. Landing the equipment was difficult and dangerous as the shore is very rocky with a high sea running at times.

To obtain the proper grade the hard igneous rock had to be benched with explosives. This was accomplished by lowering ropes and ladders from the edge of the cliff to the point where tunnels were drilled into the rock to provide pockets for the explosives. The drilling was done by compressed air fed through pipes carried over the edge of the cliff.

The tunnels were driven into the hillside to a depth sufficient to give the required width of road and then cross tunnels or laterals were driven at right angles to provide wide chambers, about every thirty

THE COAST IS  
ROCKY AND  
PRECIPITOUS

ONE OF THE BLASTS

feet apart, in which to load the explosives.

As the object was to remove the rock and throw it down the cliff out of the way rather than to break it up, a slow acting explosive was used. This consisted of Black Blasting Powder in 25 lb. kegs. As many as 250 of these kegs (6,250 lbs.) were placed in one chamber of the tunnel and a single blast often consisted of several of these heavy charges totaling 3,200 kegs or 40 tons of powder. After loading a tunnel it was necessary to fill the rest of the tunnel with earth or such other tamping material as was available. A large portion of the earth used for tamping had to be lowered down the side of the cliff in buckets, because when driving the tunnel the waste was taken out in wheelbarrows and dumped over the side of the cliff into the ocean.

Some of the rock formation along the face of the cliff was quite uncertain. The face would be a hard igneous rock while just back of it would be found a softer rock of sedimentary origin. It was therefore at times difficult to

judge just how heavy to load a charge of explosives or how far back from the face of the cliff it would break the rock. On one occasion the powder foreman fired a blast from a point which he estimated would be sufficiently far back from the edge of the cliff to allow for a sloping break and give him ample distance for safety. The break, however, occurred 150 feet back of the slope stakes, which was beyond where he stood and he and two helpers were carried with the rush of earth and broken stone 200 feet down the side of the cliff to the water's edge. Only by a miracle did all three escape death.

Where the roadbed was laid out too far back in the hillside to allow wasting the material over the edge, the blasted rock was removed by steam shovels, either by swinging the beam over the edge of the cliff and dumping or by loading into wagons or cars. Railroad and cat-carpillar shovels followed the work of blasting and finished the grade and roadbed.

This wonderful road is nearly completed, and the tourist who enjoys the scenic beauty rolling along over smooth grades little realizes the tremendous engineering difficulties encountered in its construction.

## TWENTY YEARS ARE ADDED TO LIFE'S SPAN SCIENTIST STATES

London, April 23.—Twenty years have been added to the span of human life during the last eighty years and the end is not yet.

One hundred years from now man may confidently expect to live to the ripe age of 150 years and a few centuries later he may even hope, with some chance of his hope materializing, to be immortal.

This is the rosy picture of the future painted by Sir Ronald Ross, famous British scientist, who claims that the length of human life has been increased by 50 per cent during the last century, largely by medical science in the treatment and prevention of disease.

"Eighty years ago," according to Sir Ronald, "the average London man lived 24 years and 7 months and the average London woman lived 38 years and 4 months."

"Today the average length of life of the London man is 53 years and 9 months and of the London woman 59 years. These are the figures I have gleaned from the official statistics."

"That miraculous progress will not stop. A great scientist at the Pasteur Institute in Paris has said that in 100 years time man should live to the age of 150. Why not?"

"A famous American doctor has suggested to me that we should all be immortal. Who can tell what scientific investigation may bring? No one can say how long we may live when we are free from the ravages of germs."

Sir Ronald has dedicated his life to that work, the freeing of humanity from the ravages of germs. The Ross Institute at Putney, named after him, and designed to rival the Pasteur Institute in Paris, has just begun work. The work of the Institute will be confined to research, originally with tropical and other diseases; but the subjects of the research will not be limited.

"Our investigations must be speeded up," says Sir Ronald. "Our country must give more to medical research. At present we are spending only about \$900,000 a year, which is a penny per head of the population, on the investigation of diseases which are killing millions of people."

"We should spend at least \$5,000,000—that is only sixpence a head—every year—the cost, say, of a couple of glasses of beer. If a penny per head can add twenty years to life, what could sixpence do? The prospect is boundless."

"We are still baffled by many diseases. We have not discovered the germs which cause smallpox, measles, scarlet fever and a number of tropical diseases. We have not solved the cancer problem. Even the common cold is a mystery."

"Science, if given a chance, will conquer these ills."

## SERVES SENTENCE FOR CRIMES NEVER COMMITTED, SAID

Edinburgh, April 23.—A young man is serving seven years imprisonment for forgeries which the Court of Session—the Supreme Court of Scotland—has declared are not forgeries.

David Chalmers Anderson is the victim of this miscarriage of justice. From 1920 to 1922 he was private secretary to the late John Wilson, a wealthy Edinburgh merchant, who died leaving a fortune of more than two million dollars.

Six months after Wilson's death Anderson was arrested and charged with fraud and with uttering forged stocks and bonds, the property of his late employer.

Anderson pleaded not guilty and said that all he had done had been with the approval of his employer. But this plea did not avail him, and he would have had to serve the remaining five years of his sentence had not further litigation with regard to Wilson's estate ensued.

It was a bank case. The executors of Wilson sought to recover from the Bank of England bonds and stocks to the amount of \$250,000, which, they said, had been sold by Anderson in Wilson's name.

At Anderson's trial it had been urged that his conduct was such as to show he was misappropriating money. He had been living at a very expensive rate. He had lost large sums in betting on horses; he owned three expensive cars and was buying

## Costly Romance

The marriage of the Duchess of Talleyrand, formerly Miss Anna Gould, to Count Boni de Castellane, cost her just \$4,000,000, it was disclosed in the hearing of the accounting of the \$52,000,000 estate of the late Jay Gould in New York. This amount represented debts incurred by the Count, and payment was done through a receivership. The debts were not paid until 1922, long after she had divorced the Count and married his cousin, the Duke of Talleyrand.

## BODY OF COLLINS IS TAKEN FROM CAVE; WILL LIE IN STATE

Cave City, Ky., April 23.—The body of Floyd Collins, trapped in an underground cavern at Sand Cave, for the past two months, was brought to the surface this morning and taken here.

The body was in fairly good condition. The low temperature prevailing in the cave was undoubtedly responsible for its excellent preservation.

The body was wrapped in cotton to prevent its exposure to the air upon being brought to the surface.

After embalming, the body will lie in state at Cave City for three or four days and will then be given the burial insisted upon by Collins' father and brothers.

W. H. Hunt, assisted by six other miners, employed by the Collins family, were able to extricate the body from the grip of a 100 pound rock that held it at the bottom of a seventy foot shaft at six o'clock last night. Hunt said the body was removed from the brink of a "bottomless pit" and that the edge began to crumble as he and two aides loosened the body.

"We found the body sitting in an almost upright position in the nar-

row passageway leading from the pit," said Hunt.

Collins was caught by the 100 pound boulder that fell over his left leg and caught it in a sort of vise without crushing it. Smaller boulders had fallen and covered Collins' leg but it was the big one which imprisoned him.

Hunt's work consisted in cleaning up the original rescue shaft which went to a depth of 55 feet and in deepening the same to 70 feet.

Collins was trapped January 30 after he had discovered a new cave. He met slow death while rescuers worked vainly for days and a nation prayed that he might be rescued alive.

Small said his right to operate, now in litigation, is on appeal in Montgomery County appellate court and cessation of operation is due solely to court order.

## Xenia Druggists Offer To All Who Suffer Stomach Agony, Gas and Indigestion

Money Back if One Bottle of Dare's Mentha-Pepsin Doesn't Do  
You More Good Than Anything You Ever Used

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You think perhaps you are suffocating.

You are dizzy and pray for quick relief—what's to be done?

Just one dessert spoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether? Why have chronic indigestion at all?

With this wonderful medicine you can banish indigestion or dyspepsia, catarrh of stomach or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it.

And how happy you will be when your stomach is as good as new for then dizziness, nervousness, sleeplessness, headache, dull eyes and other ailments caused by a disordered stomach will disappear and you will be your old happy, contented self again. Xenia druggists and every regular pharmacist guarantees one bottle of Dare's Mentha-Pepsin to show the way to stomach comfort.

Over 6,000 bottles sold in one small New Jersey town last year—ask yourself why?—Adv.

## Here's Guaranteed Relief for Stiff, Sore, Swollen Joints

Soaks right into tendons and ligaments of your joints—right where the trouble starts—Then blessed comfort comes quickly.

Yes; it's true—the world progresses.

All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube.

Then rub it on the offending part for about a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes

and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease they call this wonder working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, penetrating prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

Joint-Ease is for bothersome joints, whether in knee, ankle, arch, hip, shoulder, spine or finger, and for that purpose its sale at 60 cents a tube is immense.

Sohn's Drug Store has a big supply of it and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint misery gets out—quick—and money back if it fails.—Adv.

## Why Great Cooking Experts Use Knox Sparkling Gelatine

ASK the eminent Mrs. Mary Brown-Lewers at the Home Economics Cooking School, now being conducted at the McKinley School Auditorium, by the Xenia Gazette-Republican, why she uses Knox Gelatine exclusively. She will give you these reasons:

Knox Gelatine is most economical because it goes four times further than ready-flavored kinds, which only do for one meal. One package of Knox Gelatine will serve six people with a different dessert or salad at four different meals.

Knox Sparkling Gelatine, being unflavored and unsweetened, may be used in endless delightful ways, combining perfectly with all fruit and vegetables, either fresh or canned.

Knox Sparkling Gelatine, as authorities have discovered aids the digestion of other foods with which it is combined, and is highly beneficial to health.

## MODISH MITZI—Last Minute Purchases in Honor of Celebrity

By JAY V. JAY

There's not a clue as to his identity. All any one knows except Dad (the old mischief maker) is that he is a celebrity. And he is due to arrive tomorrow, with this bit of information, Polly has to pass the time somehow and it might as well be shopping for bags as smart as this flat, key-lock bag of suede.

Mitzi has also found that time hangs heavy on her hands. She has decided that something decidedly novel will catch, and who knows—perhaps please a celebrated eye. A cross word puzzle scarf is rather fetching. The animal pin of rhinestones on her hat is smart, too.

He is coming from England—not from Paris so of course, he has not seen these miniature dolls that one wears on the shoulders of a tulle or at the V of a V neck gown. Eleanor is going to buy one and also one of the landscape painted handkerchiefs. Somebody simply has to take notice.

Aunt Sophia is amused. She has met the three girls esculating to the next floor of the department store. She knows that the celebrity is responsible for their purchases. Poor Celebrity! He was never so celebrated in his life before, thinks Aunt Sophia, at least by three young damsels.

## NAZARENE PASTOR RESIGNS; CHURCH NAMES SUCCESSOR

The annual business meeting of The Church of the Nazarene, was held at the church Wednesday evening and the election of officers for the following year and delegates to the Ohio District Assembly, which will be held in Central Church, Marion, O., April 29, was held.

Reports of the treasurer and church secretary show that a good increase was made in all lines of the church during the past year. The pastor, the Rev. M. R. Gilley, gave his report, which showed that there had been more than seventy professions of conversion and sanctification during the eight months of his service.

The Rev. Mr. Gilley has declined to remain for the following year and the Revs. F. H. and Zella Landgrabe, of Newark, have been called to the pastorate here. They come highly recommended by the District Superintendent and the church at Newark where they have served as pastors for five years.

Mrs. Hattie Leach, Mrs. Eme Clark and Miss Clara Parks were elected delegates to the assembly.

## COURT NEWS

**FILES APPEAL**  
Paul D. Espey has filed an appeal in Common Pleas Court against William H. Ellison for \$116.75, from a Justice of the Peace Court decision for money alleged due for medical attention and service rendered. H. C. Armstrong is attorney for the plaintiff while F. H. Dean represents the defendant.

**APPOINTED ADMINISTRATOR**  
Ivan M. Coy has been appointed administrator of the estate of Aaron Coy, deceased, in Probate Court and has filed bond for \$1,000 which was approved by the court.

**MARRIAGE LICENSES**

## MEANEST MAN

Mrs. Harry Hilliard, Union Road, is looking for the person, whom, in her estimation is the "meanest person in the world."

A black and white fox terrier dog, a pet of Mr. and Mrs. Hilliard's and the mother of six puppies, (three weeks old, was poisoned and died Wednesday.

An investigation is being made to find the poisoner.

## BOY SCOUTS MEET AT GUARD ARMORY

Because of inadequate room for holding meetings at the Parish House, Boy Scout Troops No. 1 and 2 have established headquarters at the Company L, National Guard Armory Hall in the former Chamber of Commerce rooms on East Main Street, Scoutmaster.

## Is Housework Keeping You Tired and Weak?

Thousands of tired, nervous, run-down women who must daily perform exhausting housework and care for children, would be astonished to learn that in most instances their fatigue, headaches, nervousness and haggard appearance are now entirely unnecessary.

For physicians say that in an enormous number of cases these symptoms are due merely to the lack of sufficient iron in the blood. And now that Science has perfected a new combination of iron, like the iron in the blood, it is, in many cases, easily possible for people to increase their strength, nerve force and endurance in only two weeks time.

Any doctor will tell you that without sufficient organic iron, your blood loses its power to change food into firm, healthy flesh and tissue. So nothing you eat does you the proper amount of good. You become undernourished, weak, nervous, and lacking in physical force and endurance.

What you need, then, is organic iron—Nuxated Iron—to enrich your blood and give you strength. For Nuxated Iron is organic iron, like the iron in your own blood. Try it just two weeks and notice the astonishing improvement. Money back if not delighted. But be sure you get genuine Nuxated Iron, with the letters N I on every tablet. This is the only kind sold under this absolute money-back guarantee. At all good druggists.

er Kingsbury announced Thursday.

The Boy Scouts have obtained the use of the Armory to hold regular meetings twice each week, he said.

The Armory has a capacity nearly three times as great as the Parish House, it is said, and all drills, exercises and meetings of both troops will be held at the new quarters.

Troop No. 1 held its regular meeting Wednesday night at the new meeting place for the first time.

## CHANGES ARE MADE IN CHRIST CHURCH

During this week, new equipment is being installed in Christ Episcopal Church, consisting of a rood beam

and a system of hidden lighting for the chancel.

On account of the work under process, the services for next Sunday have been called off. The Sunday School, however, will meet in the Parish House at the usual hour.

The furniture now being put in, is part of the project of the women of the congregation to add to the beauty of the interior, and will give a more complete appearance as well as better lighting for the part of the church containing the pulpit, choir and altar.

## MRS. MARION MOORE DIES WEDNESDAY

Mrs. Rata Edith Moore, 37, wife of Marion Moore, formerly of this city, died at St. Elizabeth's Hospital, Dayton, Wednesday night at 10:40 o'clock.

Mr. and Mrs. Moore lived in this vicinity until 12 years ago, when they moved to Dayton and their home was located at 4000 Riverside Drive, that city. Mrs. Moore had been a patient at the hospital for a week, but her illness had dated back five weeks caused by a complication of diseases.

She was born in Paintersville, November 29, 1888. Her maiden name was Rata Edith Paine and her marriage to Mr. Moore took place December 16, 1908. Besides her husband, she is survived by her father, Frank Paine, Huntington, W. Va., and three sisters, Eloise, Madge, Harriett, Jean, Frances and Billy, one brother, Frank Paine, Huntington, W. Va., and three sisters Mrs. Earl Snyder, Dayton; Mrs. Raymond Jones, Birdston, N. J. and Mrs. Ernest Strine, Martinsburg, W. Va. Mrs. Moore was a niece of Mrs. Marion Kester this city.

Private funeral services will be held at the home in Dayton, Saturday afternoon at 1 o'clock, with interment in Spring Valley Cemetery.

## HOUGHTON IS GIVEN WARM RECEPTION

Plymouth, Eng. April 23—Alanson B. Houghton, new ambassador to the court of St. James, stepped from the deck of the liner George Washington into the arms of a warm welcome here today.

He was greeted by Lord Astor, the mayor of Plymouth, American Charge d' Affaires Sterling and other embassy officials.

"The warmth of joyous welcome at the very threshold of England makes me feel I am in the home of friends," the new ambassador declared. He declined to discuss international affairs, but specifically denied he had brought with him a plan for a second disarmament conference.

### TWO KILLED

Norwood, Mass. April 23—Two unidentified men were killed and their companion Joseph King of New ton was seriously injured today when their automobile crashed into the rear of a motor truck.

### TONGUE TWISTERS

Columbus, April 23—Tongue-twisters of sizable dimensions are frequent at annual meetings of the Ohio Medical Association, whose seventy-ninth convention is to be held here May 5-7. Last year's meeting was marked by presentation of a paper on the subject of a coal tar derivative known as "phenoltrichlorophthaloin" which took first place as a "multi-syllable" word. This derivative, it was stated, is used in the liver function test. This year the eye-ear-nose-and-throat section is to the fore with "dacryocystorrhinoplasty" a general term, it was explained, applied to the technique of plastic operations on the lacrimal sac of the eye.

## M'DONNELL NAMED TO OPPOSE HADDIX IN COLLEGIAN TILT

The Reserves will engage in their third game of the season Sunday afternoon at Washington Park when they meet the Collegian nine of Medway. The game will start at 2:30 o'clock.

The Collegians always have a nifty team and they are noted for their hard hitting. Their last appearance in this city was two seasons ago when they met and lost to the Bayliffs by a 10 to 0 count. Willie McDonnell was on the mound that day for the Bayliffs and he twirled superb ball letting them down with three measly hits.

According to "Jap" Ritter he will more than likely pitch against them this Sunday. The Medway bunch have several new faces in their lineup and seem to be much stronger this season than they ever have been. Haddix and Maxton are doing the pitching for the Collegians while Greene is catching. Groth and Wiser, two new outfielders, played good ball last Sunday for them when they lost a tight game to the Springfield Athletics.

The locals did not look so good last week in their game with the Shroyer Cubs. Their fielding was a bit wobbly but this can be expected this early in the season. They did not hit in the pinches any too well as seven of them were left stranded on the sacks. Of the nine hits they got off, Tewell they wasted five. At present they are batting .217 in the two games played while they are fielding .919 which is a trifle low. The Reserves will have two practices this week which will put them in the pink for Sunday's conflict with the Medway nine. Price of admission will be 35 cents and an attendance prize will be given away to the one holding the lucky rain check.

## TEACHERS TO TAKE EXAMINATION SOON

## RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

James H. Allen, of 26 Forbes St., Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. Sobn's Drug Store is my appointed agent in your city. If you live out of town I'll gladly send you free particulars.—Adv.

## DON'T GET UP NIGHTS

John Lumpkins, Dayton, Ohio, says: "Come to 7 Carrie St. and I will show you 25 pieces of gravel that passed after taking Lithiated Buchu (Keller Formula). Had to get up 15 times at night for two years. Alright Now." Lithiated Buchu treats the bladder like Epsom Salts do the bowels, thereby relieving irritation, driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Sold at leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Sayre and Hemphill. Adv.

## Doctor's Discovery Stops That Itch

One Minute Test Proves It

Are you tormented with the agony of a burning, itching skin which seems as if they would tear you apart? Do you suffer from eczema, pimples, ulcers, and other forms of skin troubles? At no risk to you, we invite you to try this one minute test. Come to our store and get a bottle of D. D. D. on trial. Gently wash the itching portion of your skin with D. D. not only those who wish to attend one or two year normal training but also those who expect to take a four-year college course in which will be included a requirement of thirty hours of education.

The ruling means that practically all prospective normal and college students of the county will find it necessary to be present at the examination which will be held at the McKinley School, Xenia, at 9:30 a. m. The next examination for teachers will be held Saturday, May 2, at the Court House.

## BAYLIFFS TO PLAY SECOND GAME WITH WASHINGTON NINE

The Bowersville Bayliffs baseball team, of Bowersville, will play its second game of the season on a foreign diamond Sunday afternoon when Washington C. H. is met.

The Washington nine is a member of the Western Ohio Baseball League and proved too strong for the Bayliffs in the latter's opening game of the season last Sunday, winning by a 6 to 2 score.

Although playing a team out of its class, the Bowersville nine showed unexpected strength in all departments of play and succeeded in holding its opponents scoreless for the

first five innings while scoring two runs on its own behalf.

Wells pitched a strong game from the first half of the game but by bunching hits in the last few frames, Washington managed to overcome the two run lead.

Undaunted by the defeat, the Bayliffs will play a second game next Sunday with Washington in an effort to get into the win column, and with Thurman Wical in the box, for at least the major part of the game, expects to make it interesting for its opponents.

Wical will twirl his last game next Sunday before leaving for Chambersburg, Pa., to pitch for the representative team of that city which is a member of the Blue Ridge League. He will leave April 28.

The Bayliffs will open the home season at Bowersville May 3, the opposing team yet to be selected by the management. The management is dickering with either Zimmerman or Wilmington for the first game, it is said.

The Bayliffs are stronger in practice

## Middle Age Ills

No longer need thousands be distressed and run-down with bladder and kidney troubles, sour stomach, gas and torpid liver—causing tired feeling, backaches, rheumatic pains, etc. Physicians have known for years of a remarkable Holland oil which restores the run-down organs to normal working order often within 24 hours. The only reason why it has not been widely used was its very disagreeable taste. But this has now been entirely overcome by putting it up in tasteless capsules under the name of Red Mill Harlem Oil. You will be amazed how quickly it banishes your distressing symptoms and you feel like a new person. Costs only 50 cents, and sold under an absolute money-back guarantee. Ask these druggists:

tically every department than last year, although composed of about the same players and should make a strong bid for the county championship. Hitting power has increased and the team appears to have been generally strengthened.

## BUILDS GARAGE

Clyde Clark, Clifton, is building a garage, on the A. S. McCullough place that village. He will arrange storage room for machines, and will open a repair department when the building is completed.

## Simple Home Treatment For Swollen Veins

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask Sobn's Drug Store, Sayre & Hemphill for an original two-ounce bottle of Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emerald Oil is a powerful, yet harmless germicide and results are guaranteed.

## ORCHARD SPRAYING TO BE SHOWN HERE

Orchard spraying will be demonstrated by F. H. Beach, of the Extension Service, Ohio State University at two meetings, April 28.

The first will be held at Everett Stubs farm, two miles south of Bellbrook, in Sugarcreek Township, at 9:30 a. m.

The second will take place at H. E. Ferguson's farm, two miles north of Zimmerman in Beavercreek Twp., at 1:30 p. m.

All farmers are invited.

## Are You Fat? Just Try This

Thousands of over fat people have become slender by following the advice of doctors who recommend Marmola Prescription Tablets. These little fat reducers are made from the same formula as the famous Marmola Prescription. If too fat, don't wait—go to your druggist now and for one dollar (the same price the world over) procure a box of these tablets. If you prefer you may secure them direct by sending price to the Marmola Co., General Motors Bldg., Detroit, Mich. They reduce steadily and easily. No need for tireless exercise or starvation diet and no unpleasant effects. Adv.

## MERCHANTS TO OPEN WITH COLUMBUS TEAM

The Xenia Merchants will open the 1925 baseball season with the Aco of Diamonds team, of Columbus Sunday afternoon at Dickerson Park. The game is scheduled to begin at 2:30 o'clock.

Not much is known regarding the strength of the Capital City nine, but the Diamonds are represented as being one of the high class teams in the state, so a close game is in prospect.

The game with the Columbus team is the first clash of the season for the Merchants, but the locals have engaged in half a dozen practice sessions and have quickly rounded into mid-season form.

The Merchants will lineup Sunday about the same as last year with practically all of the old veterans back in the fold. Lewis will probably receive the call for mound duty in the opening game.

## CENTRAL MAY ENTER MIAMI TRACK MEET

An invitation has been extended to Central High School to enter a track team in the Southwestern Division of Ohio high schools track meet to be held at Miami University, Oxford, O., May 16, Athletic Director John Ballantyne announced Thursday. The invitation will be taken under consideration, he said.

Central has not been represented by a track team, recently although the new Cox Memorial Athletic Field is easily available for track.

A number of students, upon learning of the invitation, have been practicing in the space surrounding the football gridiron, in preparation for the possibility of making the trip to Miami.

If it is decided to accept the invitation, Central would probably participate in only the dashes, the long distance runs and the relays. East High School is already entered in the meet.

## SICK WOMEN ATTENTION!

Read this Remarkable Testimony Regarding Results from Taking Lydia E. Pinkham's Vegetable Compound

Norfolk, Virginia. — "If you only knew how many women and girls have taken your medicine by bearing my testimony, it would seem wonderful to you. Every day and every chance I have I advise some one to try it. It was in June, 1904, when I had given up to never get well, that I wrote to you. My husband went to the drug-store and brought the Vegetable Compound home to me. In a few days I began to improve and I have often taken it since. I am now passing through the Change of Life and still stick by it and am enjoying wonderful health. When I first started with your medicines I was a mere shadow. My health seemed to be gone. The last doctor I had said he would give me no more local treatments unless I went to the hospital and was operated on. That was when I gave the doctors up. Now I am a healthy robust woman. I wish I could tell the world what a wonderful medicine Lydia E. Pinkham's Vegetable Compound is. I will be only too glad to answer letters from anywhere. I wish all sick women would take it." — Mrs. J. A. Jones, 317 Colley Avenue, Norfolk, Virginia.

### FINDS RELIEF FOR COUGHS

Mrs. Nancy Mather, Box 56, Richmond, Ohio, writes: "FOLEY'S HONEY AND TAR COMPOUND is a fine medicine for coughs and colds, as it helped me when nothing else would." Mothers everywhere demand a reliable cough remedy free from injurious narcotics. Supplying this demand for fifty years made FOLEY'S HONEY AND TAR COMPOUND one of the largest selling cough medicines in the world. Refuse substitutes. Insist upon FOLEY'S Sold Everywhere.—Adv.

## FOR TEN YEARS "World's Greatest Buy"

Everyone Says It—Sales Prove It

It is only as you find the real comparisons for Hudson qualities among the costliest cars that the enormous difference in price is so astonishing.

Today it offers the greatest price advantage and finest quality in Hudson history. Never was this supremacy of value so outstanding. And the greatest Hudson sales on record show how complete is public knowledge of the facts.

### Is There Any Reason to Pay More?

Hudson's position as the "World's Greatest Buy" is not merely a new attainment. It is acknowledgment of ten years' refinement of a great car around the famous patented Super-Six principle. No motor design, however costly, has been found to displace this long-time leadership of the exclusive Super-Six.

Its simplicity has always meant a lower selling price than is permitted in complicated types.

And today, economics possible only to the largest production of 6-cylinder closed cars give it value advantages never held by any rival.

All now know that higher price can buy no smoother performance than Hudson's. It cannot buy more brilliant results in acceleration, power or speed. It cannot buy greater reliability or endurance.

No car at or near the price rivals the Hudson Coach in actual proof of value—which is SALES.

a young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription" and placed it with the druggists in every state. Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womanhood. After suffering pain, feeling nervous, dizzy, weak and dragged-down by weaknesses of her sex, a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments. Put up in both fluid and tablet form. Send 10c to Dr. Pierce, Buffalo, N. ## PAINTS

Guaranteed 100% Pure

If you are thinking of painting your house, barn, or auto, this spring, and want one of the highest grade and best paint made for the same money that you ordinarily pay for cheap paints, come in and see us.

Monarch Guaranteed 100% PURE PAINTS

Have been used and have given entire satisfaction for more than half a century. In Xenia a number of home owners are now having their houses painted with Monarch paint. Xenia painters who have used this guaranteed pure paint are loud in their praise of it.

SPECIAL PRICES TO INTRODUCE

To introduce this paint in Xenia and Greene County we are making a special low introductory price. Then, too, Monarch paint will go farther, cover more surface per gallon, and wear many times longer than most paints. This means real paint economy.

DONT CONFUSE THESE PAINTS

With ordinary cheap paints. Monarch paints, we believe, are the best that money can buy. They are guaranteed to be 100 percent pure. If you want the best for less, come in.

## APPROVE CAMP

Columbus, April 23 — Disabled American Veterans of the World War have placed their stamp of approval upon the Citizens' Military Camp movement, according to a communication from Secretary of War Weeks received by Major General Bundy, commanding the Fifth Corps Area, at Fort Hayes here. General Bundy concurred with Secretary Weeks in the belief that "no endorsement could be more gratifying or encouraging to the war department and none should carry greater weight with the American people."

## Junior Cross Word Puzzle

### HOW TO SOLVE PUZZLE

The words start in the numbered squares and run either across or down. Only one letter is placed in each white square. If the proper words are found each combination of letters in the white squares will form words. The key to the puzzle—the first word—is given in the drawing. Below are keys to the other words.

Running Across

Word 1. In the background of the picture.

Word 4. Sticks used in playing the games of billiards or pool.

Word 5. To obtain.

Word 6. A weight. One-sixteenth of a pound.

Running Down

Word 1. A bird that lives in a clock and tells the time.

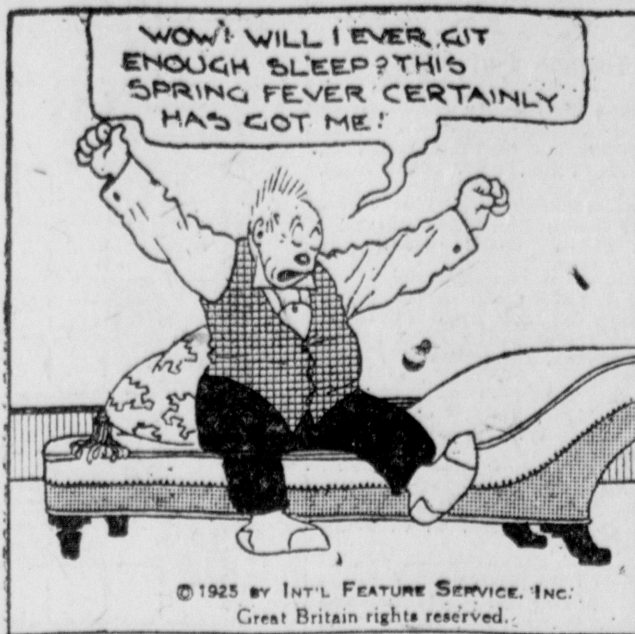

Word 2. A western state.

Word 3. Vessel in which water is boiled.

## BRINGING UP FATHER

## MICHAEL'S MARRIAGE

By MICHAEL

### CHAPTER XXIII.

But about the third week after

The wonder of Chicago, the spirit of the city as epitomized by Carl Sandburg, did not capture Michael Menlow for some days after he got his first glimpse of it, through smoke hanging perpetually over the railroad tracks that keep the Chicago river in close confines. He stood before the station for several minutes, awed and fascinated by the roar of the Loop.

An hour and a half later he was greeting Thomas Corin, manager of the Chicago office of the electrical works. He had been whirled in a taxi to a big hotel in Madison street, and then carried in another taxi to the office; so that his first impressions of the great city were the product of the roar in his ears, and not of anything he had seen.

He got into the habit of taking a taxi between the hotel and the office building, so he would not have to elbow his way through the crowds in State street, and he knew nothing of Chicago when, ten days later, Thomas Corin departed abruptly on a month's vacation, granted by telegraph by Arthur Manning.

It was apparent now to Michael that the president intended to keep him in Chicago for some time. He had been tricked, that was all. He did not doubt that the whole arrangement had been planned well by Manning.

On reflection it seemed to him that there was nothing he could do but reconcile himself to the situation. He couldn't defy Manning. He couldn't quit. He couldn't shirk and cause himself to be removed from Corin's job; his sense of loyalty to his father's old business wouldn't allow him to do that.

He determined to make the best of his lot, and to that end he devoted his evenings to familiarizing himself with the business and possibilities of the territory. He pored over the accounts, and went through the office's files of correspondence with customers. It seemed to him that Corin had been doing very well.

"What the devil does Manning mean by sending me here! I don't know anything about salesmanship. I might ruin our trade in this section." So he exclaimed to himself when he had completed his inspection of the files. That same evening he wrote to Manning that he was pleased to have this new responsibility. He determined to play Manning's game. And, completely occupied by his new work, he wrote Lilah less often.

his arrival in Chicago he began to get lonely. He no longer went to the office at night, but visited in turn all the theatres in Randolph and State streets, adjourning later in the evening to a cafe. He was bored, sitting alone while every one around him seemed so carefree and happy. He had never learned to amuse himself. Even at home he would have been attacked by loneliness without Alonzo Capper to turn to.

It was this loneliness that eventually caused him to seek out Elaine. She had come to his mind strongly the very first evening he felt the need of company. But, considering himself virtually engaged to Lilah, he felt, foolishly perhaps, that it would not be fair for him to enjoy himself in the company of another young woman. It must be remembered that Michael was really in love for the first time.

Then, one evening after getting down a lonely dinner with difficulty, he telephoned Elaine. Wonders of wonders! She didn't have an engagement for the evening, and her voice indicated that she would be very glad to see Michael. With a light heart and a box of bon bons he set out in a taxi for the South Side.

## Nerves All Unstrung?

Xenia Folks Should Find the Cause and Correct It.

Are you all worn out? Feel tired, nervous, half-sick? Do you have a constant backache; sharp twinges of pain, too, with dizzy spells and annoying urinary disorders? Then there's cause for worry and more cause to give your weakened kidneys prompt help. Use Doan's Pills—a stimulant diuretic to the kidneys.

Xenia folks recommend Doan's for just such troubles.

Mrs. Woodrow C. Warner, 225 E. Third St., Xenia, says: "When I stooped, I got sharp stabs of pain through my back and my back often felt so cramped, I could hardly move at times. Mornings my back and shoulders felt as stiff as a board. I was tired and weak and became dizzy. I also had severe nervous spells. My kidneys acted irregularly also. Doan's Pills relieved the trouble."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Warner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
